

# TECH-LIFE MINI - OPERATING INSTRUCTIONS

## What's in the box:

- 1 x Tech-Life Mini Speaker
- 1 x USB Charging Cable
- 1 x AUX Audio Cable
- 1 x Instruction Manual

## Getting Started

### 1-Charge it Up!

- We recommend a full charge to maximize battery life
- Micro-USB Charge port located under rubber flap labeled 'AUX DC IN'
- When plugged in, the 4 battery level indicator lights will blink to indicate the current approximate level of charge (25-50-75-100%) and will turn off when fully charged

### 2-Turn it On!

- Press and hold  button for 2-seconds until speaker says "Hello"
- Speaker will announce battery level as "Full/Medium/Low"

### 3-Pair it up!

- Press and Hold  button for 2 seconds until the speaker says "Bluetooth Pairing"
- Consult your phone/tablet/laptop instructions for pairing to a Bluetooth device and connect to the device named "TECH-LIFE MINI"
- Speaker will announce "Connected" when paired properly

### 4-PLAY LOUD!!!

- Enjoy the heck out of your Tech-Life Mini. For Pro Tips, see next page

## PRO TIPS:

### Multi-Link-Connect up to 100 Tech-Life Speakers!

You can share your music wirelessly by linking several Tech-Life *Multi-Link (TLML)* enabled speakers to create a bigger soundstage environment or a simple multi-room speaker system. Each **TLML** enabled speaker can function as a MASTER or a SUB.

Mode	Description
MASTER	<ul style="list-style-type: none"><li>• Connected to your phone directly. Controls the group of <b>TLML</b> enabled speakers.</li><li>• Adjusting the volume on MASTER speaker automatically syncs the volume on all SUB speakers</li><li>• Powering-Off MASTER will power down All other SUB speakers</li></ul>
SUB	<ul style="list-style-type: none"><li>• Connected to the MASTER Speaker</li><li>• Can play up to 150ft away from MASTER</li><li>• Each SUB's volume can be controlled directly using its volume buttons</li></ul>

### Multi-Link Set-Up Instructions:

1. Pair one speaker to phone
2. Short-press **MASTER** button on speaker - MASTER LED light will flash
  - a. Speaker will announce "disconnected" while searching for SUB speakersShort-press **SUB** button on all other speakers in group  
Master speaker will announce "Connected" when it has found the SUB speaker(s)

### Multi-Link Continued...

- Adding additional speakers to Multi-Link group later:
  - Short-Press **MASTER** button on MASTER speaker
  - Short-Press **SUB** button on new SUB speaker
- Removing Speaker from Group in Multi-Link group:
  - To use a speaker individually, long-press either **MASTER** or **SUB** buttons

## EXPERT LEVEL

1. **Play/Pause from Speaker** - You can play or pause your music simply by short-pressing the **▶||** button
2. **Track Change** - Long-Press **-/+** Volume buttons for track forward or track backward to skip songs
3. **Connect via AUX cable** - No Bluetooth? No Problem. Plug included AUX cable into AUX port located under flap labeled **AUX DC IN**
4. **SIRI/GOOGLE assistant** - Double Short-press the **▶||** button and then start talking

5. **Battery Status Check** - Short-press  button to check the current battery status. The LED indicator lights will show an approximate battery percentage remaining (25-50-75-100%), and speaker will announce battery “Full/Medium/Low”

## EXTRA DETAILS

- **Automatic Power-Off** - If there is no sound coming through the speaker for approximately 45 minutes, the speaker will automatically power-off to save battery
- **Grouped Speakers - Multi-Link** - Once speakers have been previously paired and connected via Multi-Link, they will automatically connect again to their previous setting upon their next power-on.
  - Important: You must power on all SUB speakers within 1-minute of MASTER speaker powering on in order to resume Multi-Link. After 1-minute, the MASTER speaker stops searching for new SUB speakers, and you will need to repeat Multi-Link setup as described above.
- **Tech Specs**
  - Power Output: 10 Watts
  - Play Time Estimate: Up-to 12 hours
  - Bluetooth 5.0, A2DP Audio protocol
  - Connection Distance: 80ft to phone
  - Supports Two-Phone Connection
  - Supports up to 100 Multi-link enabled speakers

### FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions①)

This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
