

Detect. Connect. Protect.

January 1st, 2019

To whom it may concern,

This document is to allow RectorSeal to perform a change and multiple listing of the FCC ID of Triple+ FCC ID Numbers, to RectorSeal's own FCC IDs with their unique Grantee Code and Product code for the Private Label offering we manufacture for RectorSeal, named TripleGuard™.

To clarify, Triple+ will maintain and keep on using the below mentioned FCC IDs as applicable.

The internal components are the same as Triple+, just rebranded for RectorSeal's private label brand. RectorSeal's Grantee Code is 2ARTH.

The FCC IDs and IC IDs that are to be listed under RectorSeal are:

Triple+ CLM™ Actuator V2.0

Convert to RectorSeal FCC ID: 2ARTHRSTGACT20

Certifications: FCC: 2AFOICLMASOU20

Triple+ CLM™ HUB

Convert to RectorSeal FCC ID: 2ARTHRSTGHUB10

Certification: FCC ID: 2AFOICLMCTRL10

Triple+ CLM™ Water Flood Detector

Convert to RectorSeal FCC ID: 2ARTHRSTGFLD10

Certification: FCC ID: 2AFOICLMFLD10

Thank you,

Michael Isakov

CEO

Triple Plus Ltd.
