

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Battery Recharge

The unit has a built in Li-ion rechargeable battery, recharge it before use as follow:

- Connect the supplied USB connection Cable to the Micro USB Port on the unit.
- Connect the the supplied USB Connection Cable to the USB port of any computer or USB charger having DC 5V output. (During charging, the Red Indicator on the unit will illuminate. When finished, it will turned off)

Notes:

Your battery will last longer if you following these simple guidelines for caring for and storing it.

- A. For charging first time, charge it at least 10 hours.
- B. Recharge and store the battery within the temperature range of 5°C~35°C (40°F~95°F).
- C. Do not over charge (longer than 24 hours). Excessive charging or discharging may shorten the battery's life.
- D. Battery life naturally shortens slowly over time.
- E. The rechargeable battery incorporated in this product is not user replaceable.

Location of Controls:

1.  (Power On-Off / Music Pause) Button
2.  (LED Lights On-Off / Change light mode) Button
3. Micro USB Port (For charge only)

- Pairing code "0000" or "1234" may need to enter.

Normal operation after pairing:

1. Power on the unit as previous procedures.
2. Wait a few seconds until the unit was auto paired to the external BT Device. "Bluetooth connected" will heard from speaker.
3. Plays the music in the connected Bluetooth Device as usual.

Troubleshooting:

SYMPTOM	POSSIBLE CAUSE	POSSIBLE SOLUTION
Can't power on	Built in battery consumed	Recharge the battery
No sound or sound weak	Volume of paired / connected device in low level	Rise the volume level of paired BT device
Sound distortion	The external BT device too far from the unit	Place the external BT Device close to the unit

Specification:

Power Source	Built-in DC 3.7V, 1200mAh (4.44WH) Li-ion rechargeable battery. Recharge by DC 5V; 500mA through Micro USB Port.
Maximum Play time	Up to 4 hours after fully charged (75% volume)
BT Version	5.0
BT Effective range	Up to 32 feet in open area
Audio Power	2 W (RMS)
Impedance of Speakers	2 W; 4 Ohm

Accessories:

1 x User's Manual

1 x USB Connection cable (For charge only)

2 x holder (With 3M tape on the rear, can hold the unit on the wall or table)
