Package Contents

Smart Label Printer *1

Label Paper Roll *1

USB Type-C Cable *1

Quick Start Guide *1

02

Installation

- 1 Press the Open Slide on the left to open the paper compartment.

- 2 Push the paper compartment baffle to the sides and fit the label paper into the paper compartment with the print side facing down.

 Danger! Beware of sharp blade when the paper compartment is open.

- 3 Slide the paper compartment baffle inwards to secure the label paper, pull the first paper out, make sure it sticks out of the paper exit.

- 4 Close the paper compartment and long-press the Power Button to turn the printer on.

03

Installing App

01.Download App

Before using the printer, please install the NIIMBOT app from Google Play or the App Store.

NIIMBOT

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Declaration of conformity

Hereby, Wuhan Jingchen Intelligent Identification Technology Co., Ltd. declares that this device is in compliance with the essential requirements and other relevant provisions of Radio Equipment Directive (RED) 2014/53/EU. This product can be used across EU member states. This device can be used in European Union.

Hereby, [Wuhan Jingchen Intelligent Identification Technology Co., Ltd.] declares that the radio equipment type [NIIMBOT B1] is in compliance with Directive 2014/53/EU.
