FL-E009 product operating instructions

FL-E009 Bluetooth speakers

● Back function introduction
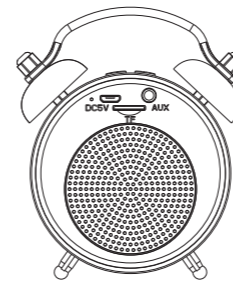

● Bluetooth pairing

(pairing peripheral needs A2DP function to transmit stereo music).

Encrypted wireless connections between two Bluetooth functional devices (e.g. Bluetooth speakers and Bluetooth phones, Bluetooth speakers and PC, Bluetooth speakers and IPAD).

● Note

if the Bluetooth speaker is in a low power state, it may not be connected to devices such as the PC pad. Or if these devices can't find Bluetooth speakers, they have to charge them immediately before using the computer. If they don't have a Bluetooth receiver, they need to buy an additional Bluetooth receiver and a FL-E009 speaker to match.

When the phone is Bluetooth connected, if the phone exceeds the connection distance (more than 10m), it will issue a disconnect Bluetooth prompt, and will automatically connect when the phone is close to the product.
Recharge this speaker has a built-in rechargeable battery, which must be charged 1. 1 before the first use of the speaker. The speaker must be turned off before charging, do not charge in the state of booting, to avoid the sound box work abnormal.

● Description of application

FL-E009 Bluetooth speakers are suitable for mobile phones with Bluetooth capabilities, laptop computers (with Bluetooth A2DP functionality) or external Bluetooth receivers, and are compatible with Windows xp/Vista/Win7/Win8/Win10 operating system platforms.

● Key function introduction

Double alarm clock prompt

4.2
Bluetooth chip

AUX playback

Built-in battery

Audio source input indicates that the device has Bluetooth TF and AUX 3.5mm two kinds of audio source input, (TF card support format: MP3 / WAV,) if there is AUX/TF card input, it will take AUX 3.5mm audio source or TF card as priority. For example, when the device is plugged in, AUX will be the priority. If you need to play with Bluetooth, you must unplug the AUX 3.5mm to connect to the Bluetooth device. If you need to change the input mode, you can switch short by pressing M key.
