# Fi Series 3 Base:
# FCC e-Labeling Access

Part 1: Product Description

The Fi Series 3 Base, model FB3, is a battery charger and communications hub for a wearable asset tracker for dogs. This Base does not have an integrated display, but a smartphone containing a display is required to operate the Base via the Fi app. The Fi app is the only mechanism for the user to see data from the Base or control the Base. The connection between the Base and the user's smartphone can be made locally via Bluetooth under the control of the end user. As such, this product qualifies for electronic labeling under the criteria in FCC publication number 784748 D02.

# Part 2: User Steps to Access Regulatory Information

Step 0: Main app menu

Step 1: Access the "Bases" submenu to view all Bases connected to the user

Helpful tips about your Fi base

The Fi base helps extend battery life of the Fi collar when its nearby, preserving battery for times when GPS tracking is needed.

Make sure to place your Fi base where your dog spends most of its time.

For best connectivity to your Fi collar, always keep your Fi base plugged in and connected to WiFi.

Part 3: Security of Regulatory Information

The regulatory information displayed in the Fi app is securely retrieved and displayed on a per-device basis based on the device serial number, which is unalterable and set at the time of manufacture.

Part 4: Physical label for purchasing and importation

A physical label on the packaging is provided so the FCC ID can be verified at the time of importation, marketing, and sales.

A URL to retrieve FCC compliance information, http://www.tryfi.com/fcc , is also provided on the packaging.
