

## Wireless Monster Speaker User Manual

- 1. Speaker
- 3. Microphone
- 5. Strap Hole
- 2. LED indicator
- 4. ON/OFF button
- 6. Micro USB socket

### Charging the Battery:

1. Insert the charging Cable into the Micro USB input port. Connect the USB plug into DC 5V USB port. The Charging LED indicator will turn on.

2. After Charging is complete, the LED indicator will turn off. **Noted:** when music sound volume decreases and you hear warning tone, please charge the speaker.

### Bluetooth pairing for music/phone call/camera remote shutter:

1. Turn on the speaker by pressing "0" button for 3 seconds.
2. Turn on your Bluetooth device and activate the Bluetooth function.

3. Search for Bluetooth pairing name: Amor-AHA (Green) / Lee-AHA (Blue) and click to pair. The speaker will pair automatically and the blue indicator light will turn on. Press "0" button to answer the call when a call is coming in or take a photo when the camera is open on your device.

4. Turn off the speaker by pressing the "0" button for 4 seconds.

**Note:** 1. If you can't take a photo, if using an Android, please open "Settings" – "Camera" then set "Volume Key" to "Shutter", if using IOS, you just need to refresh the Bluetooth connection.

2. If you can't play music, please reconnect the Bluetooth connection.

3. Self-Timer function is not compliant with all mobile phones.

### Pairing 2 speakers

1. Make sure no speakers are connected to your device.
2. Power on 2 speakers (at the same time).
3. Double Click "0" button on the 2nd speaker. You should hear a chirp sound, then the other speaker should make a short connect sound. (If you do not hear a connect sound, double click the opposite speaker "0" button.
4. In your device Bluetooth menu, locate & Select the pairing name: Amor-AHA (Green) / Lee-AHA (Blue) and click to pair. You will now be connected to both speakers

### Specification:

Frequency Response	20HZ-20KHZ
THD	≤ 1%
S/N	≥ 80 DB
Bluetooth Version	Bluetooth V5.0
Product Size	41.5*45mm
Product Weight	40g

**FCC Statement:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1) Reorient or relocate the receiving antenna.
- 2) Increase the separation between the equipment and receiver.
- 3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4) Consult the dealer or an experienced radio/TV technician for help.

**Caution:** Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
