

ITECH

FUSION 2 HEADPHONES

CHARGING YOUR HEADPHONES

These headphones include a rechargeable, non-removable battery. Please use the included micro USB cable to charge.

Charging voltage and current is 5V/1A. Please charge the product with a UL CERTIFIED power supply providing input power at or below 5V/1A.

Fully charge the product before first use. It typically takes 1.5 hours to charge this device.

The LED light turns red while charging and turns blue when fully charged.

Notes

- Only use a **UL CERTIFIED** USB power adapter (not included).
- Battery performance may deplete over time. This is typical for all rechargeable batteries.

POWERING ON

Long press the power button for at least 2 seconds; an audio prompt will confirm that the device is powered on.

BLUETOOTH CONNECTION

Your device must be Bluetooth compatible

- Long press the power button for at least 2 seconds; LED light next to the charging port will alternately flash blue and red to confirm that the headphones are in pairing mode.
- Activate the Bluetooth function on your audio device (such as a mobile phone) and make sure it is discoverable for new devices. Search for **FusionHP**
- On your device, your headphones should appear as **FusionHP**. Choose to connect. If the LED light flashes blue with an audio prompt, the connection is successful.
- Your headphones will automatically connect with the last paired device. To re-connect, simply power on your headphones

WIRED MODE

3.5mm audio cable connected to audio input on device
Plug and play: Connect headphones with the included 3.5mm audio cable to any device with a compatible 3.5mm audio input. The headphones do not need to be powered on.

While in wired mode, audio must be controlled via connected device.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference and (2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

RF Warning Statement: The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

WARRANTY: This limited warranty gives you specific legal rights and you may also have other rights, which vary from state to state.
