**📱 App Download and Printer Connection**

Download

- ◆ Scan the QR code to download Flash Express App

Connection

- ◆ Login the app and open "Send-Print Label"  
When printing for the first time, please follow the tips to connect the printer to Bluetooth.

**⚠ Safety and precautions**

- ◆ Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions
- ◆ Children should charge or use the printer under adult supervision. After fully charging, please ensure that the charging cable is removed in time to prevent overheating or fire by short circuit.
- ◆ This is a Class A product. In a domestic environment, the product may cause radio-interference. In this case, the user may be required to take adequate measures.
- ◆ Please avoid touching the printer head directly to avoid damage. In particular, do not touch the printer head directly after printing to prevent overheating.

**FCC statement**

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
