## **Contents** upload

There are three methods, Computer convert, Cell phone app and Web page.

1. Computer convert Due to video format are various, some of the video format can not play directly, so there is an encoder in TF card of each 3D fan, after converted by encoder, the video can play directly, below is steps of how to using encoder:

Copy this encoder files in TF card, paste on computer,

Double click the "Convert.bat" file, Popup the above window, if convert success, it will appear convert finished words as image 2. After converted, the video will be in the "Output" file, please copy it to TF card, then can play in 3D fan.

WARRANTY CARD						
User	Name:		Product Model:			
	Invoice Number:		Purchase Date:			
	Address/Zip code:					
Service	The date of repair	Failure description and handling information		Service Person		

\* Under warranty, the product will get free repair if it be used normally. This warranty shall be rendered null&void if: 1. The product is physically damaged.

- 2. The product is installed, maintained and operated in ways not as recommended by us.
- problem that not related to manufacturing.

#### **FCC Statement**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1)this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

3. The product is faulty or damaged due to other occasional
