

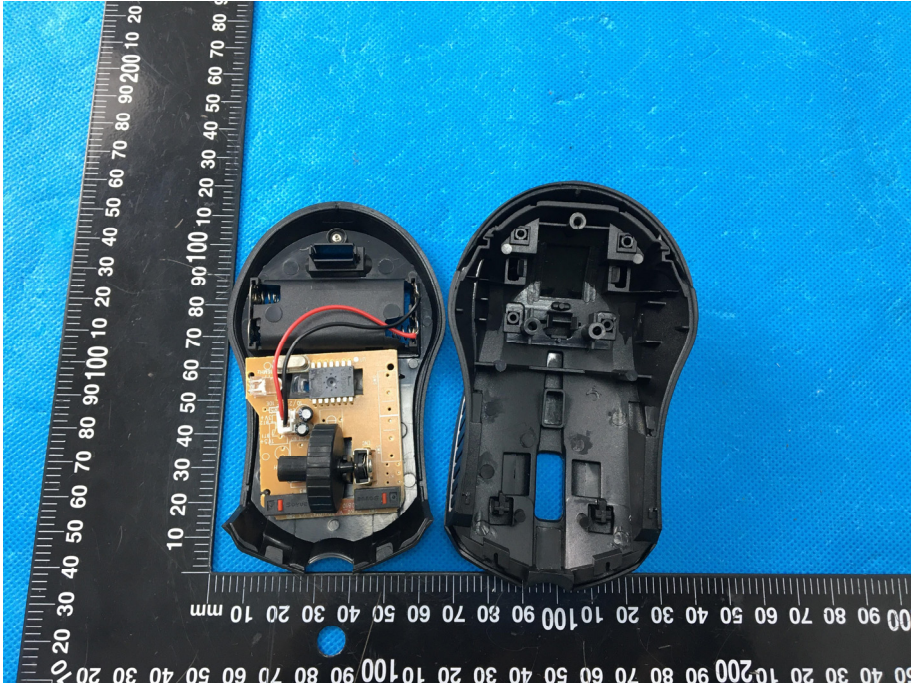

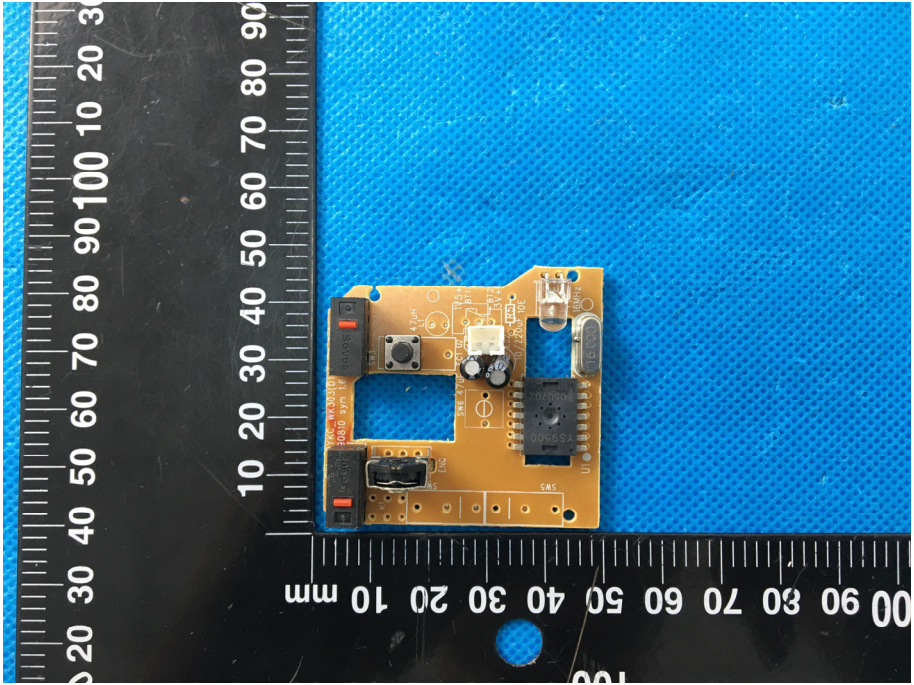

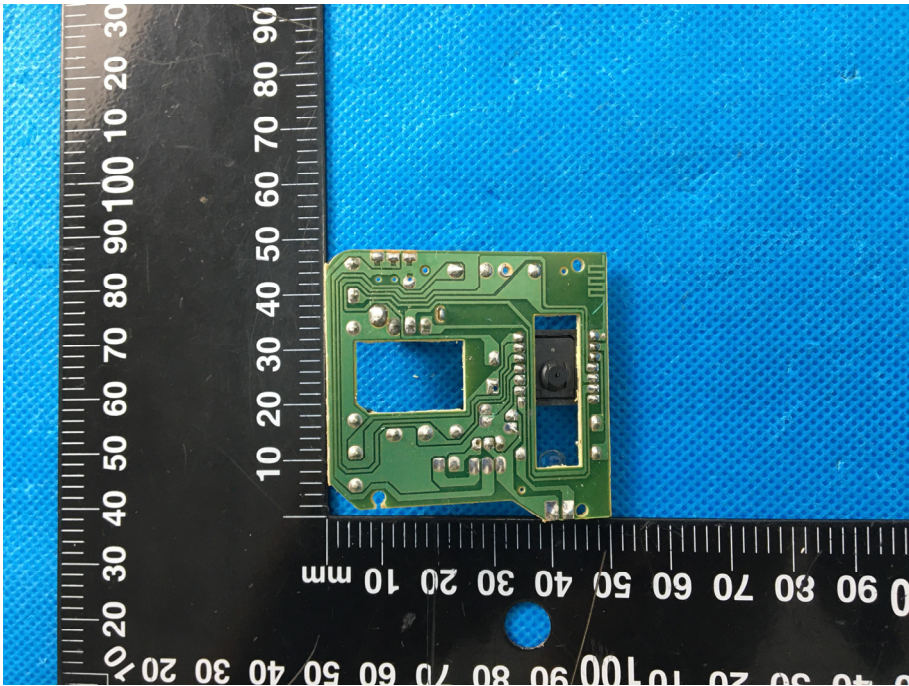

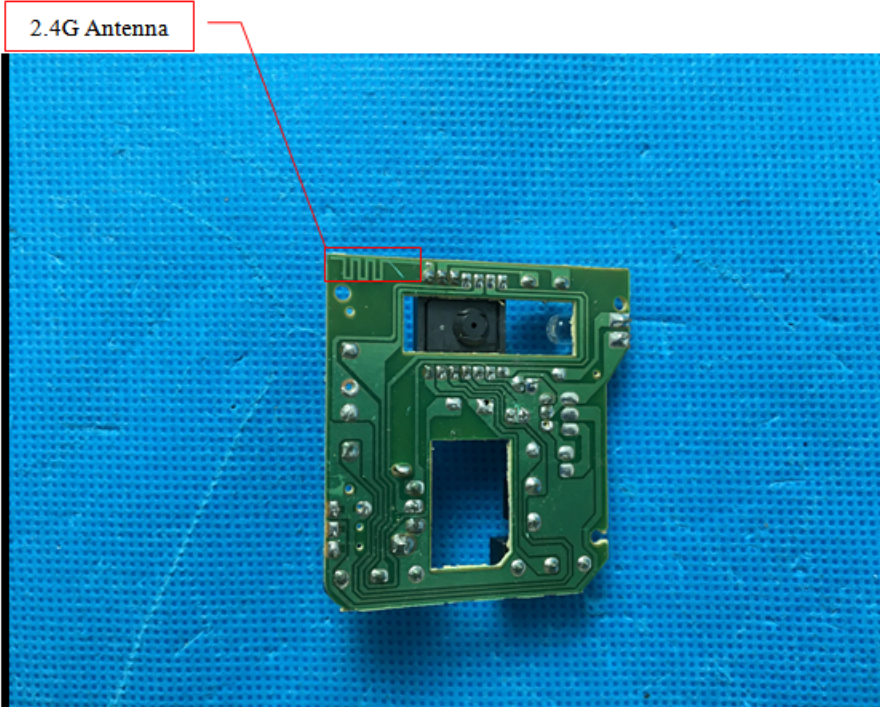

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>This photograph shows the internal components of the EUT housing. On the left, the black plastic housing is open, revealing a yellow printed circuit board (PCB) with various electronic components, including a microcontroller, capacitors, and a battery. On the right, the back of the housing is shown, which contains a speaker and other internal parts. A black ruler with white markings is placed vertically to the left of the components for scale, showing measurements in millimeters.</p>
<p><b>Solder Board-Component View 1</b></p>	 <p>This is a close-up photograph of the yellow PCB. It shows various electronic components such as a microcontroller, capacitors, and a battery. The board is populated with components, and the solder joints are visible. A black ruler with white markings is placed vertically to the left of the board for scale, showing measurements in millimeters.</p>

<p><b>Solder Board-Component View</b> 2</p>	 A photograph of a green printed circuit board (PCB) component with various solder joints and components. The board is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters. The ruler markings are visible from 0 to 100 mm.
<p><b>Antenna View</b></p>	 A photograph of the same green PCB component, viewed from a different angle. A red rectangular box highlights a specific area on the board, and a red line points from this box to a label "2.4G Antenna" located in the upper left corner of the image. The board is placed on a blue textured surface.
