Charging

- (Red) = Charging
- (Off) = Full Charged

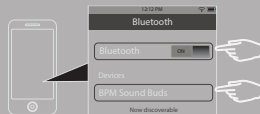

- = Full Charged
- ○ ○ = Charging

Powering On/ Bluetooth Pairing

Press & hold both power buttons
simultaneously for 3-4 Seconds

Check your phone's Bluetooth settings menu.
Make sure that Bluetooth is turned ON.
Connect with the device listed as TWS Earbuds.

Once your earphones are powered on the LED Indicator Lights will alternately flash red and blue. After approximately 8-10 seconds, the lights on the master earphone will continue flashing this way while the LED indicator turns off on the second earphone. This means both earphones are paired together.

Controlling Your Earphones

One Click: Play/Pause/Answer Incoming Call/End Call

Two Rapid Clicks: Redial Last Number

Press and Hold: Reject an Incoming Call

Hold 2 seconds: Next Track

Hold 4-5 Seconds: Power Off (When Not Receiving a Call)

Using the Case

● = Power > 10%
○●○ = Power < 10%

Press to see power status of case

Note: Press the power button on the charging case, the earphone will be charged.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC ID:2AS50-I7X

Specifications
