### **MK-MC200 INSTRUCTION MANUAL**

#### Standard Accessories:

• Micro USB cable

#### Overview:

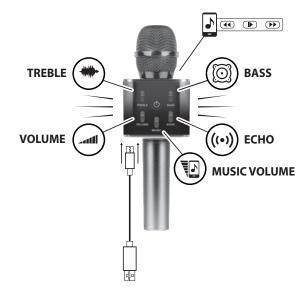

MyKaraoke Pro is a combination of a wireless Bluetooth speaker and microphone.

Use the included Micro USB Cable to charge MyKaraoke Pro:

### How to charge MyKaraoke Pro:

- When the battery is too low, MyKaraoke Pro will power off.
- 2. Use the included Micro USB Cable to charge MyKaraoke Pro via-any USB charger.
- 3. The LED indicator will light up red while charging and turn off when fully charged.

### **Functions and Sound Effects:**

#### Note:

Micro USB charging port is located underneath MyKaraoke Pro.

### Pairing MyKaraoke Pro:

- Press the <sup>()</sup> button on MyKaraoke Pro to power on the microphone. The LED indicator will light up blue with a prompt tone
- This means MyKaraoke Pro is ready to be paired.
- 2. Turn on your phone or tablet's Bluetooth setting.
- Find and selectMy Karaoke Pro from the device list and wait for the tone. Your mobile device is now paired with MyKaraoke Pro.
- 4. See Functions & Sound Effects to get the best karaoke experience.

#### **Download App:**

Download any karaoke app from the iOS App store or Google Play store and play your favorite song. Play:

Pick your favorite song in the karaoke app and sing along.

#### Note:

If only listening to music, turn the volume switch down on the microphone to minimize feedback/noise.

#### FCC Warnin

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna.

- -Increase the separation between the equipment and receiver.
  -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
