VIMGO VENUS X3 USER MANUAL

Please read this manual carefully before using and keep the User Manual.

SCREEN MIRRORING

Know System Settings before Screen Mirroring

Step 1:
Press button "P" on the projector or press on the remote to enter the Input Source Interface, then select Screen Mirroring.

Step 2:
In the interface of Screen Mirroring, press OK to enter the WiFi selection interface.
Note:
To enter the WiFi Selection Interface, please press OK in the interface of Screen Mirroring.

Starting Screen Mirroring

Important:
Before screen mirroring, please press button "P" on the projector or press on the remote to enter Input Source Interface and select Screen Mirroring.

Screen Mirroring through Wireless Connection

For iOS System
* Screen Mirroring via Router's WiFi
1. Turn on the projector, select Screen Mirroring as the input source to enter the Screen Mirroring Interface.

1. Press OK to enter WiFi selection interface and connect the projector to your router's WiFi with correct password.
2. The WiFi icon on the interface will change from to and the router's WiFi will be displayed on interface of Screen Mirroring after successful connection.

1. Get back to the WiFi setting of your iOS mobile device, then connect it to the SAME router's WiFi.
2. Activate Screen Mirroring/Display Mirroring on your iOS mobile device and search for the projector, then select VIMGO-X3-XXXXXX from the searching results to connect.

1. Go to the settings of your iOS mobile device and connect it to the WiFi of VIMGO-X3-XXXXXX (password: 12345678).
2. Activate Screen Mirroring/Display Mirroring on your iOS mobile device and search for the projector.
3. Select from the searching results to connect.
4. The content on your iOS mobile device will be mirrored to the wall screen via cellular data after a successful connection.

For Android System
To achieve this function, your Android device must support **Multi-Screen/Wireless display**. Some may differ from different devices.
1. Turn on the projector, select Screen Mirroring as the input source to enter the interface of Screen Mirroring.

1. Turn On the WiFi switch in your Android device.

Note:
Successful WiFi connection is not a must, but please make sure the WiFi switch is on.
2. Activate **Multi-Screen** on your mobile device and search for the projector.
3. Select **VIMGO-X3-XXXXXX** from the searching results to connect.
4. The content on your iOS mobile device will be mirrored to the wall screen after a successful connection.

For Windows 10 System
To achieve this function, your Windows 10 device must support the **Wireless Display** feature.
1. Turn on the projector, select **Screen Mirroring** as the input source to enter the interface of **Screen Mirroring**.
2. Turn On the WiFi switch in your Windows 10 device.

Note:
Successful WiFi connection is not a must, but please make sure the WiFi switch is on.

1. Press the "Windows Logo+P" key combination on your keyboard to enter the **PROJECT** interface, then select "Connect to a wireless display" to search the projector.

1. Select **VIMGO-X3-XXXXXX** from the searching results to connect.
2. The content on your Windows 10 device will be mirrored to the wall screen after a successful connection.

Notes:
1. The latency of screen mirroring will be affected by the network environment. A bandwidth of 100Mbps or more is recommended when using screen mirroring.
2. Make sure your mobile device is close to the projector when using wireless connection. A distance within 10m is recommended.
3. Some mobile devices may not support screen mirroring due to the compatibility.
4. Due to the copyright restriction from Hulu, Netflix, and similar services, the content **CAN NOT** be mirrored or cast.
5. If the projector may freeze, please reboot the projector or press OK in the Screen Mirroring Interface to go to the WiFi Selection Interface and disconnect the current WiFi connection and re-connect the Home WiFi.

Screen Mirroring through Wired Connection

For iOS System
1. Turn on the projector, select **Screen Mirroring** as the input source to enter the interface of **Screen Mirroring**.
2. Connect your iOS mobile device to the **USB** port of the projector with the **ORIGINAL** lightning cable.
3. Select **Trust** in the pop-up window of "Trust This Computer?".

For Android System
1. Turn on the projector, select **Screen Mirroring** as the input source to enter the interface of **Screen Mirroring**.
2. Select the settings of your mobile device, find **Developer options** and turn on **USB debugging**.

1. The display of your iOS mobile device will be mirrored to the wall screen after a while.

Tip:
If the projection fails, please unplug the lightning cable from the projector or reboot the projector, then repeat the steps mentioned above.

Trust This Computer?
Should I allow this computer to access my location, contacts, calendar, and other information?
Trust Don't Trust

Allow USB debugging?
Allow USB debugging?
OK Cancel

Notes:
1. The USB cable **MUST** be the **ORIGINAL** cable or the cable which can transfer data, otherwise screen mirroring may fail. You can plug the cable into your laptop to check the availability of transferring data.
2. Some mobile devices may not support screen mirroring due to the compatibility.
3. Some Android mobile devices may only transfer the display without audio due to the protocol restriction.

FCC Statement

The design, development, and assembly of this equipment is the responsibility of the manufacturer and the user's liability to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into a circuit on a separate branch from which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 15cm between the radiator and your body.
This statement must not be construed as operating in conjunction with any other notice or statement.

ISED Warning

This equipment meets Industry Canada's (hereafter ISED) standards. Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.
In order to avoid an interference with a radio receiver, this equipment must be used in accordance with the following conditions:
(1) The equipment must be used in accordance with the instructions.
(2) The equipment must be used in accordance with the instructions.
(3) The equipment must be used in accordance with the instructions.
(4) The equipment must be used in accordance with the instructions.
(5) The equipment must be used in accordance with the instructions.
