<p>Solder Board-Component View 3</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled as View 3. The board is rectangular and populated with various electronic components, including several electrolytic capacitors, integrated circuits, and a QR code. It is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler shows measurements in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale from 0 to 60 mm.</p>
<p>Solder Board-Component View 4</p>	 <p>A photograph of the same green PCB component, labeled as View 4. This view shows the reverse side of the board, featuring a large silver-colored metal pad, a smaller component labeled 'LABEL', and other surface markings. The board is positioned on the same blue textured surface next to the same black L-shaped ruler for scale, with the horizontal scale from 0 to 100 mm and the vertical scale from 0 to 60 mm.</p>

<p>Solder Board-Component View 7</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled as View 7. The board is rectangular and densely populated with various electronic components, including integrated circuits, resistors, and capacitors. It is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's width being approximately 100 mm and its height around 60 mm.</p>
<p>Solder Board-Component View 8</p>	 <p>A photograph of a green PCB component, labeled as View 8. This board is smaller and more compact than View 7, featuring a central integrated circuit, several resistors, and a connector. It is placed on a blue textured surface next to a black ruler with white markings. The ruler indicates the board's width is approximately 100 mm and its height is about 40 mm.</p>

<p>Solder Board-Component View 11</p>	 <p>A photograph of a green printed circuit board (PCB) populated with various electronic components, including integrated circuits, capacitors, and resistors. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.</p>
<p>Antenna View</p>	 <p>A close-up photograph of the PCB focusing on the antenna section. A red rectangular box highlights a component labeled "000001". A red line points from this box to a label "BT Antenna" located above the image. The board is positioned next to a black ruler with white markings in millimeters, showing measurements from 0 to 100 mm.</p>
