|                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component<br/>View 11</div> |  <p>A photograph of a small red printed circuit board (PCB) component with various electronic components, including a microcontroller and a USB connector. It is connected to a circular silver-colored metal disc via a thin wire. The assembly is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters and centimeters.</p>              |
| <div>Solder<br/>Board-Component<br/>View 12</div> |  <p>A photograph of the same red PCB component as in View 11, but with a different circular component attached. This component is a flexible, spiral-shaped metal disc with a yellow adhesive strip. It is connected to the PCB by a thin wire. The assembly is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters and centimeters.</p> |
