Features

1. Embedded with Android 11 smart operating system and unique UI design, bringing you a more convenient operation and better visual experience.
2. Support USB mouse and keyboard, realizing easy manipulation like a computer. Using a mouse for set up is recommended.
3. Built-in Wi-Fi module, high capacity memory and high capacity cache, making it smoother to watch 1080P HD movies and play big games.
4. High-quality LCD screen as the display, no flicker, low radiation, greatly reducing eye fatigue, eye protection, high brightness, high contrast, and wide viewing angle, ultra-fast response time greatly reduces ghosting of fast moving images.
5. Progressive image processing and industry-leading motion compensation technology improve the flickering and blurring in the edges of motion picture.
6. Dynamic contrast technology can significantly improve the clarity and contrast of various screens.
7. Multi-channel USB interfaces, supporting HD media streaming.

Safety Warnings and Precautions

Thank you for purchasing the high-performance multi-functional LED backlight Digital Signage from Displays2Go. We have considered the factors to ensure personal safety in product design and have tested rigorously at the factory. However, improper installation and use may result in electric shock and fire.

In order to safely use, maximize performance of the unit and extend the life of the product, please read and follow all instructions carefully before using the product.

Keep the instructions for future reference.

We strongly recommend using a surge protector, or a power strip with internal circuit breaker to prevent damages to the digital signage.

Symbol Legends:

-  **Warning:** May cause personal injury or death
-  **The operation is prohibited**
-  **Caution:** May cause damage or property loss

If any of the following occurs:

- Power outage or instable voltage.
- Abnormal sound or smell from the unit.
- AC power cord is damaged.
- Digital Signage is damaged due to drop, knock or impact.
- Any liquid or foreign matters fall into the enclosure.

Turn off the Digital Signage immediately, pull out the plug from the power outlet, and ask the authorized personnel for maintenance timely.

 **If coal gas or other flammable gas leaks, do not pull out the plug of the LCD Digital Signage or other electrical appliances, instead, turn off the gas valve immediately, and open the doors and windows quickly.**

- Cut off the power supply before connecting or disconnecting any cables.
- Do not place the Digital Signage on any instable positions, or else it may be damaged or cause fire.
- Do not place the Digital Signage in the positions such as:
 1. The environment subject to direct strong sunlight, moisture, extreme temperature or too much dust,
 2. The environment with flammable or explosive materials,
 3. The environment with flammable or corrosive gases,
- Do not use damaged or inappropriate power outlets, and ensure that the plugs and outlets contact properly.
- Do not let dust or metal deposits adhere to the plugs and outlets.
- Do not damage the power cords:
 1. Do not modify the power cords,
 2. Do not place heavy objects on the power cords,
 3. Keep the power cords away from heat source,
 4. Do not pull the cord to remove the plug.
- Do not connect too many plugs to one outlet in parallel, or else it may cause fire due to excessive power consumption.
- Do not approach the Digital Signage with open flame (e.g. a lighted candle), or else it may cause electric shock or fire.
- Do not put any sharp objects, metal or liquid into the vents or let them touch the signal terminals to avoid short circuit, product damage, and electric shock.
- The openings in the enclosure are designed for ventilation and cooling, to ensure long time reliable running of components inside the enclosure and prevent overheating. Do not block the openings when place the unit.

● Do not touch the plugs with wet fingers, or else it will cause electric shock.

Do not use the Digital Signage in stormy weather, especially when there is lightning, instead, please disconnect the power and antenna plugs to avoid lightning strike.

● Do not disassemble the Digital Signage without permission, or else it may cause electric shock or fire. Please ask qualified technician for repair.

 **CAUTION**

- Do not let children climb onto the Digital Signage.
- Keep the small parts away from children to prevent them from swallowing.
- If the Digital Signage won't be used for a long time, please turn it off and pull out the power plug.
- To adjust the position of the Digital Signage, please disconnect all power cords and move slowly to avoid tip over.
- Do not scratch or knock the LCD with hard object, or twist and squeeze the LCD.
- Do not turn on the unit immediately when it is moved from a place with low temperature to high temperature, or else it will cause condensation and malfunction.
- Before cleaning the Digital Signage, please pull out the power plug, wipe with soft cloth, do not use industrial chemicals, prevent foreign matters from entering the machine. Improper cleaning (such as cleaning solution, water) may damage the product, erase the printed information, and even cause damage of the components if fluid flows in, resulting in machine failure.
- If the unit displays the same screen for a long time or the moving picture has fixed text or icon, it will leave ghosting on the screen and won't disappear when the unit is turned off, it is normal and isn't covered by the warranty.
- The power of the Digital Signage can be cut off by pulling out the plug.
- If the LCD screen ruptures and the liquid splashes on the skin, please rinse for 15 minutes with clean water immediately, and consult your doctor.
- To carry the Digital Signage with hands, please grab and hold the edges, do not apply pressure on the panel.
- Use the Digital Signage properly: Use in proper lighting conditions, insufficient lighting or long time watching will impair your eyesight.
- Unplug device to disconnect from power.
- Insert the plug into the outlet properly, or else it may cause sparks and fire.
- The technical specifications printed herein and on the packaging are subject to change without prior notice. The Manual may be slightly different from actual operation, and the latter is applicable.

Assembly and Connection

Packing List

Name	Quantity
Kiosk	1
LED strip remote	1
Android board remote	1
<i>Cleaning Kit Towel and Glove</i>	1

Name	Quantity
Operation Manual	1
Power Cord	1
WIFI Antenna	1

NOTE: TWO PEOPLE REQUIRED.

Contact Displays2Go if you have questions about the operation, debugging and connection of the unit, if the unit doesn't work normally, please cut off the power immediately and consult the dealer. The unit is class-A product, which may cause radio interference in living environment. In this case, please take feasible measures, and use power plug as the disconnection device.

Steps for Unpacking

1. Open the top cover as shown in Fig. 2.

(Fig. 1)

(Fig. 2)

2. Carefully lift out the unit as shown in Fig. 3 and place it at the desired location that is level and clean (Fig. 4).

(Fig. 3)

(Fig. 4)

Interfaces

1. USB port X2,
2. RJ45 interface (Ethernet),
3. HDMI input,
4. WiFi interface,
5. On/Off button,
6. Power port,

Note: Please pull out the power plug before installing or disassembling the unit!

HDMI Input Feature

1. Connect another media player or PC via HDMI Port on the device.
2. Click the Main Apps button “” in the Home page to enter the “APPS” menu interface (Fig. 1).
3. Click the "HDMI in" (Fig 2).

NOTE: Some media players may not be supported.

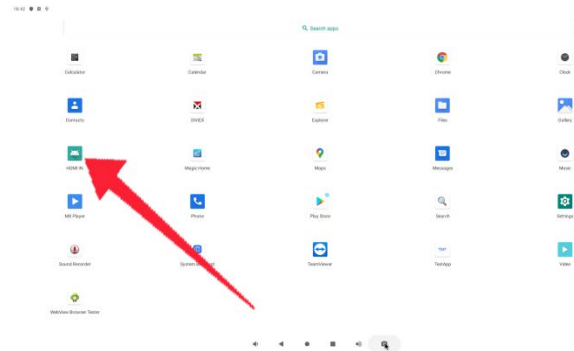

Fig. 2

Remote Control

Installing batteries for the remote control:

Remove the battery cover and insert two AAA batteries (1.5V). Ensure that the battery polarity matches the “+”/“-” marks in the battery compartment of the remote control.

Precautions for using the remote control:

- Aim the remote control at the receiver window. Do not place any object between the remote control and the receiver window to avoid interference with the normal operation.
- Keep the remote control away from violent vibration. In addition, do not set or place the remote control in direct sunlight, or else the remote control may be deformed by heat.
- The remote control may be invalid when the receiver window of the unit is in direct sunlight or strong lighting, in this case, please adjust the angle of the lighting or the unit or approach the receiver window to use it.
- The distance of remote control will be shortened if the battery voltage is insufficient, in this case, please replace with new batteries, if the remote control won't be used for a long time or the batteries are run out, please take out the batteries to avoid corrosion due to battery leakage, which will damage the remote control.
- Do not use batteries of different types or mix new batteries with old ones. Always replace the batteries in pairs.
- Do not put the batteries in fire, or charge or disassemble them, or charge, short circuit, disassemble, heat or burn used batteries. Please dispose of waste batteries in accordance with local environmental regulations. Do not expose the batteries in overheated environments such as sunlight and fire.

Description of remote control buttons:

Button	Function
	Power switch
	To show the Source menu
	Mute
	Turn up the volume
	Turn down the volume
OK	Confirm selection
	To move the cursor up
	To move the cursor down
	To move the cursor left
	To move the cursor right
	Switching options
	Home button
	Go back to the parent menu
MENU	To show the main menu
SETUP	To set up OSD menu

Note: Press the SETUP button in the main interface to call out the OSD menu. After exiting the playback mode by pressing the STOP button, the playback will start according to the schedule next time.

Remark: The real appearance of the remote control may be different from the picture, please refer to the actual product.

Description of Basic Operation

Power on/Standby

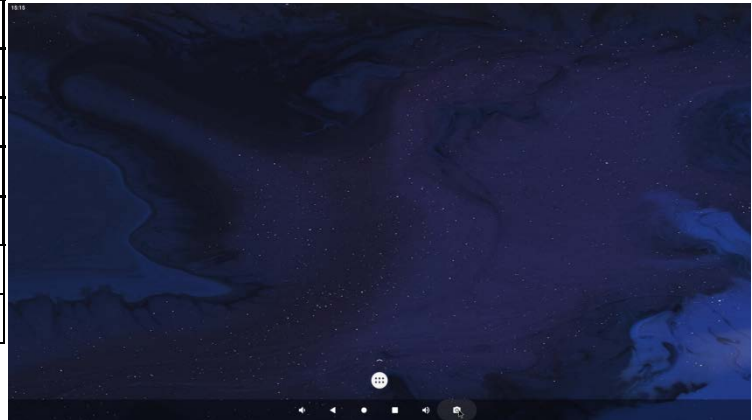

Insert the power plug into the outlet. If the Digital Signage has the switch button “I”, turn it on, if you press the switch button “O”, the Digital Signage enters standby state.

In power on state, enter “System Assistant” and press the “⏻” button on the remote control, and the Digital Signage enters standby state.

About Launch Desktop

Description of Desktop Icons

	Background applications
	Sound +

Description of Wallpaper Switch

We suggest using a mouse to change the wallpaper.

Connect a mouse with the digital panel through USB port, then follow the steps below:

1. click “Setting”
2. At the setting menu, click “Display”
3. At the Display setting menu, click “Gallery”, or “Wallpaper”
4. Then select an image you would like to set up as background.
5. Confirm the selection by clicking “Set wallpaper”.

File Manager

1. Click the Main Apps button “” in the Home page to enter the “APPS” menu interface (Fig. 2),
2. Click the “Explorer” icon in the “APPS” menu interface (Fig. 2) and enter “Explorer” menu (Fig. 3),
3. Click options in the “Explorer” menu to read the files from different devices.

Operating instructions of LED Strip Remote and APP

Remote Control

Code matching function: power on the device, hold down "ON" key for 5 seconds, the device flashes slowly to indicate successful code matching.

Code clearing function: power on the device, hold down "OFF" key for 5 seconds, the device flashes quickly to indicate successful clearing.

APP

Step1: Click the "Magic Home" icon in the "Application" menu to open the application. Click on "+" in the top-right corner,

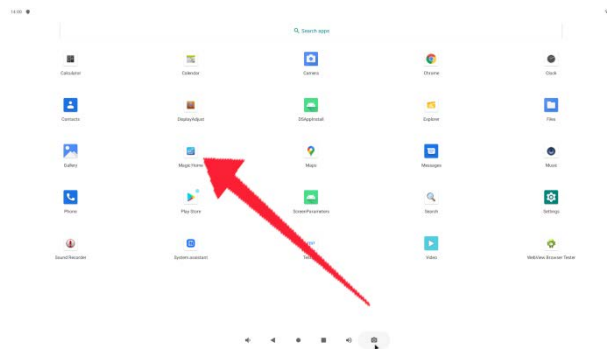

Fig. 1

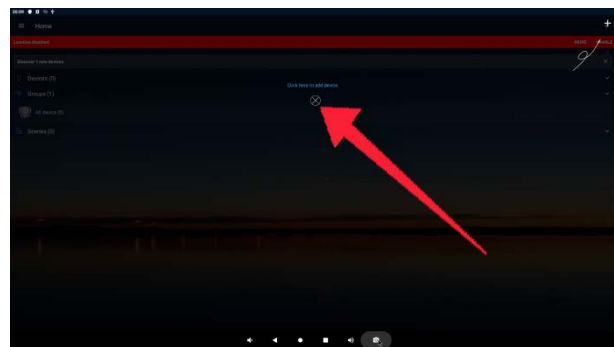

Fig. 2

Fig. 3

Step 2: Select "Add Device" from drop down menu, the login interface will show up.
 You can choose to log in with your existing account or create a new account for the first time use. (An account is required to use the app),

Fig. 1

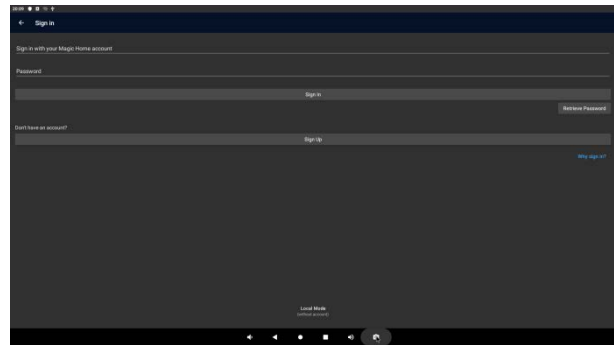

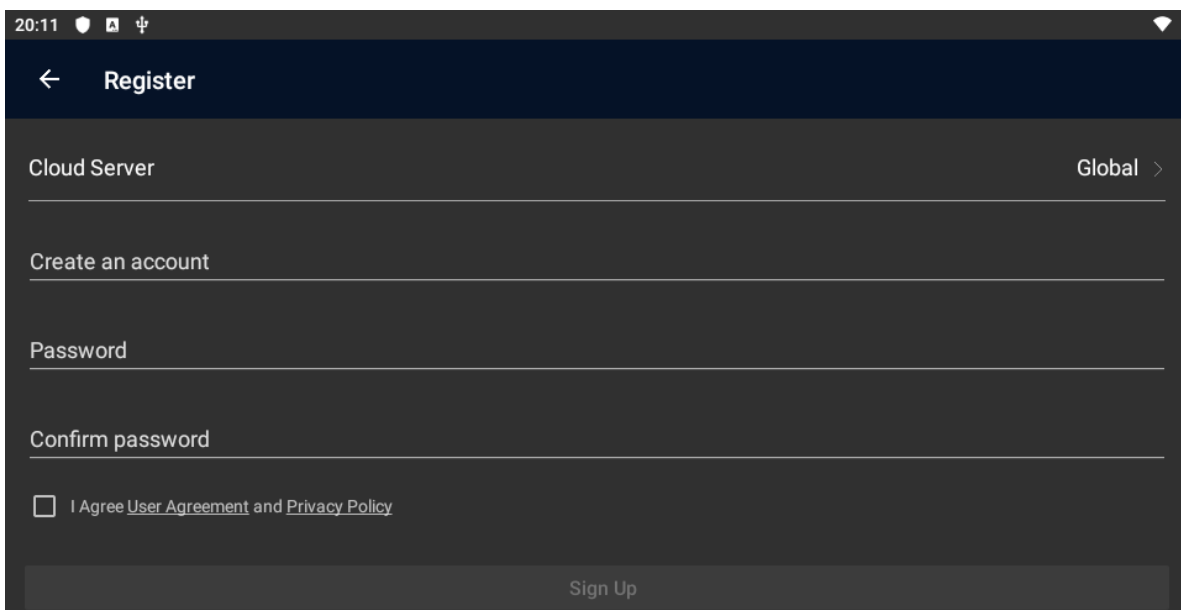

Fig. 2

Step 3: Instructions to create a new account
 Enter your email address in the "account name" field.
 Enter and confirm your password. Password must have a minimum of 4 characters, numbers and letters can be used.

Step 4: Setting interface of "Location"

As shown in Figure 1: After entering the interface of "Location services are currently disabled. App requires location services to be enabled in order to scan for wifi devices. Enable it now? ", click "YES",
 As shown in Figure 2: In the "See all" option, select "App access to location",
 As shown in Figure 3: After entering the "Location" interface, find the "Magic Home" icon and click it,
 As shown in Figure 4: in the "LOCATION ACCESS FOR THIS APP" option, select "Allow all the time",
 As shown in Figure 5: return to the previous option, and display "Magic Home" in "ALLOWED ALL THE TIME" of the "Location" interface.

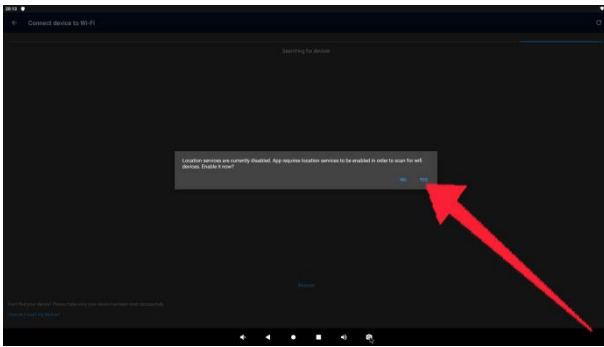

Fig. 1

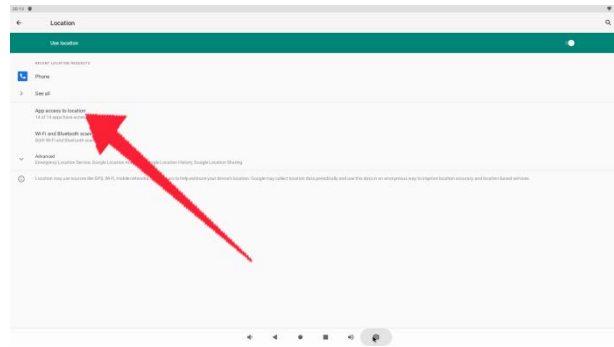

Fig. 2

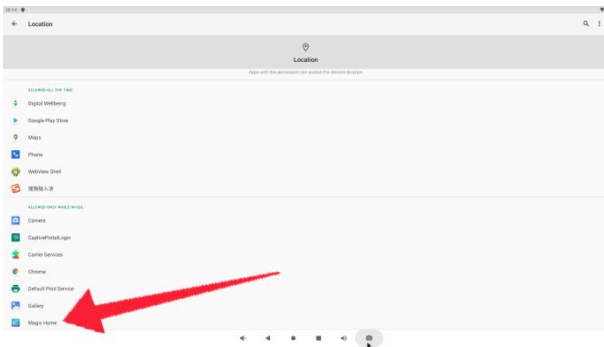

Fig. 3

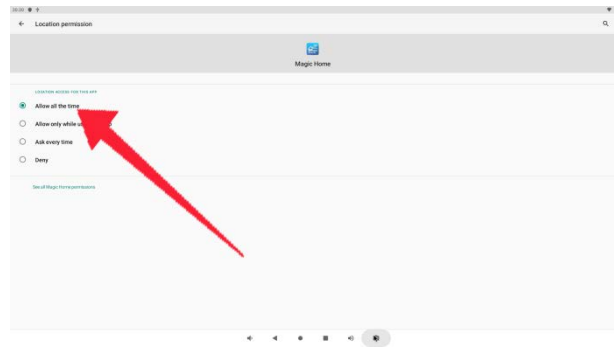

Fig. 4

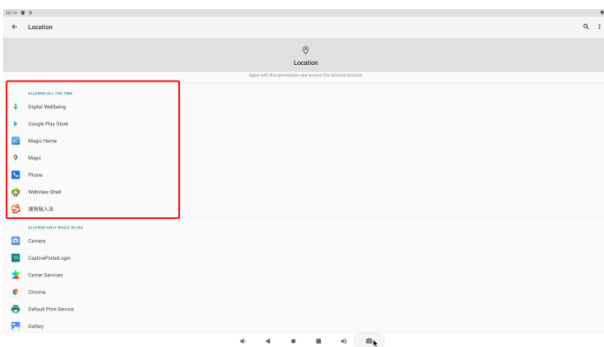

Fig. 5

Step 5: Connect the LED light controller to WiFi.

Search for the LED light controller, and click the light bar controller (Fig 6-1),

As shown in Figure 6-2: Select the WiFi to which the LED light controller is connected,

NOTE: Connect to the same WiFi network to which the digital signage is connected.

As shown in Figure 6-3: Rename the LED light controller or directly click "Done",

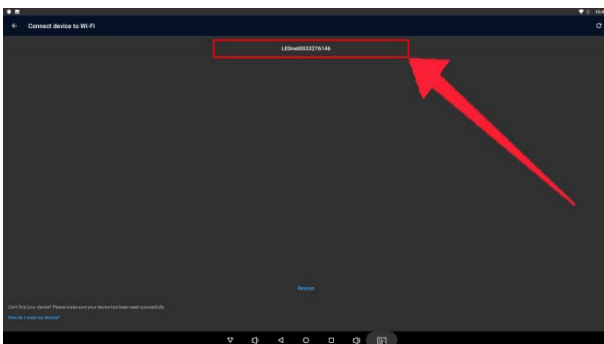

Fig. 1

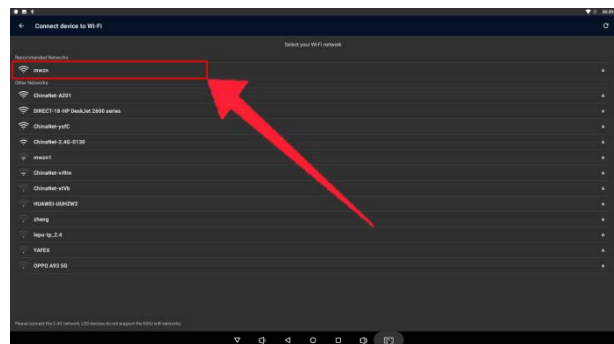

Fig. 2

Fig. 3

Step 6: Enter the LED light controller setting interface

- **Colors:**

Support 16 million colors control and brightness adjustment. 5 own created colors and brightness level will be stored by pressing long on the "DIY" button and recalled by short pressing the same button. On the display top left corner, the individual channels R/G/B can be called separately and adjusted from 0-255 to obtain the desired colors.

Fig. 1

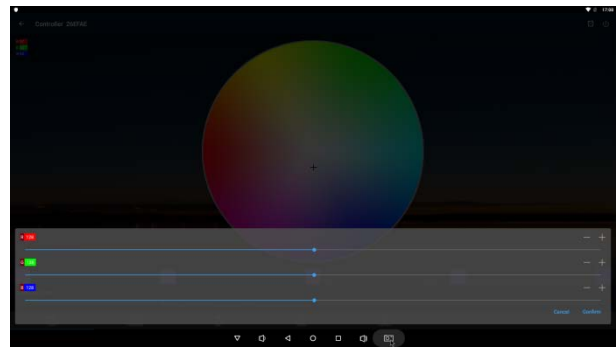

Fig. 2

- **Functions:**

20 preset dynamic modes, convenient for users to access different lighting modes.

Support for customized colors and preservation.

Each group of 16 colors can be selected for different colors transformations, and there are three dynamic modes of gradual change, jump, and strobe for selection.

Added candle light mode function, adjust brightness, speed and color freely, the light can be adjusted to breath and beat like the candle light to create a warm atmosphere.

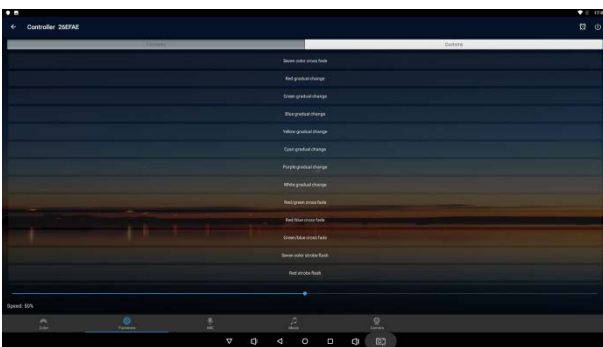

Fig. 1

Fig. 2

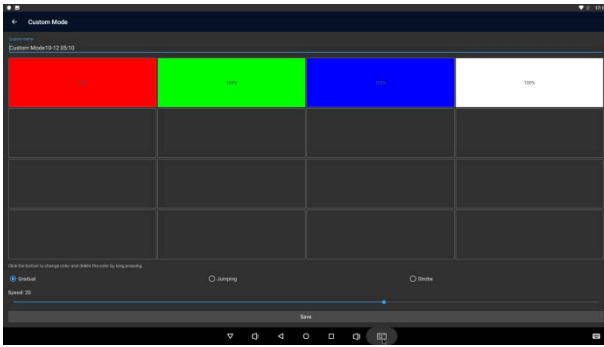

Fig. 3

- **Microphone:**
This device does not support this function. You need to install a voice module.
- **Music:**
Synchronization function of lighting and music rhythm
You can import music through the USB flash disk to synchronize the light and music rhythm.

Fig. 1

Fig. 2

- **Camera:**
This device does not support this function, so you need to install a camera module

DiViEx APP Introduction

System requirements:

Step 1: Before using this application, make sure your machine meets or exceeds the following system requirements:

CPU	RK3568
ROM	32GB
Operating system	Android 11

How to upload media files :

Step 2: Make new directory named "MediaFolder" in root directory in U disk.

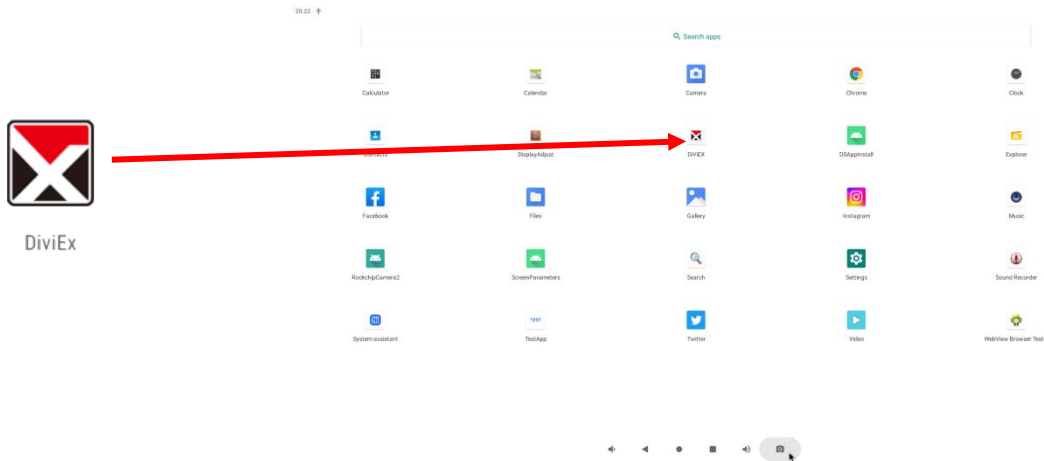

Open "MediaFolder", create 3 subfolders, and change their names to "Images", "Videos", "Music".
 Copy the media file to be displayed, image to "Images", video to "Videos", Music to "Music"

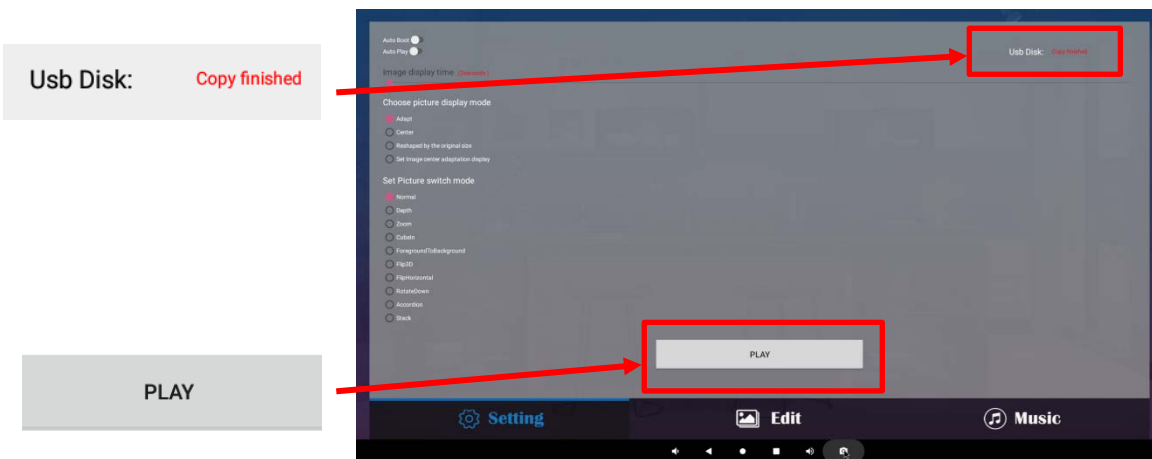

Format requirement:

Image	JPG/JPEG/BMP/PNG
Video	MPEG1/MPEG2/MPEG4/ MKV
Music	MP3

Step 3: Plug in the USB drive into the device and click the DiViEx App to open it.

Step 4: When the screen shows "Copy finished" after "Usb Disk:",

Setting:

Step 1: Select the time you would like each picture to be on the screen for by dragging the bar to the desired time. Select how you would like the images to display. Select the desired transition effect between pictures.

- **Auto Boot**

If enable, application will auto boot when android system boot

- **Auto Play**

If enable, application will show all resource including images, videos

- **Choose Picture display mode**

"Adapt", "Center", "Reshaped by the original size", "Set Image center adaptation display"

- **Set Picture switch mode**

During the image conversion process, there are 10 animations: "Normal", "Depth", "Zoom", "CubeIn", "Foreground To Background", "Flip3D", "Flip Horizontal", "Rotate Down", "Accordion, Stack".

Edit picture:

This function show all pictures, you can edit all pictures, and remove it.

- **Edit picture (Crop)**

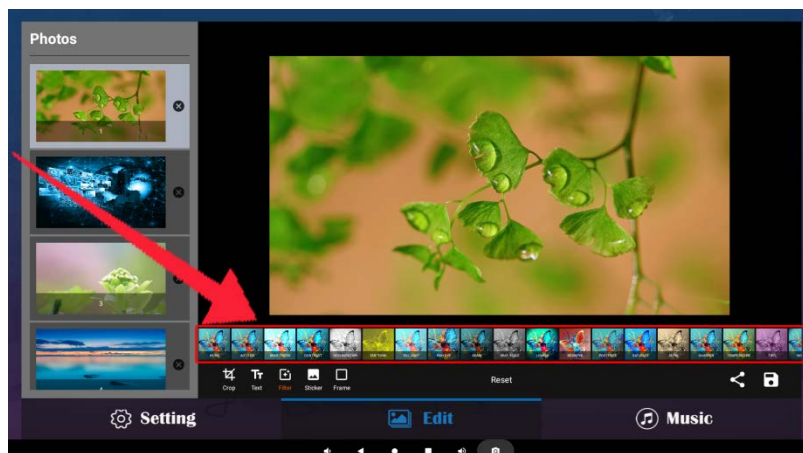

There are four corners and four border to crop the picture, you can drag it

- **Text**

You can add text to the picture

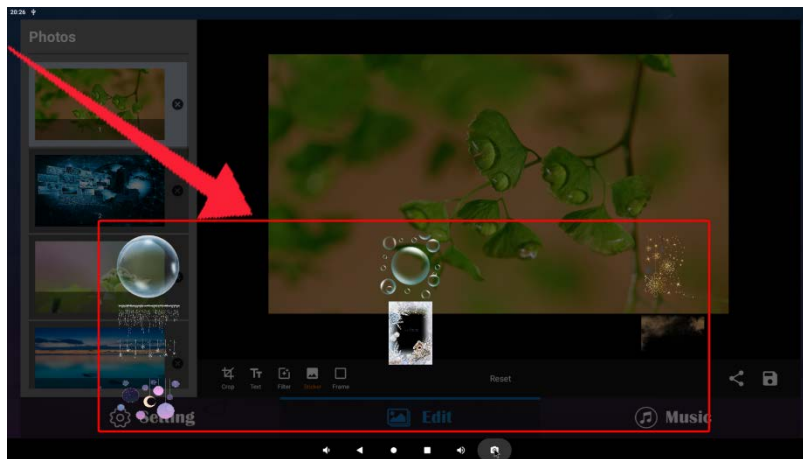

- **Filter**

Set different filter for the picture, we support the following filter: NOE, AUTO_FIX, BRIGHTNESS, CONTRAST, DOCUMENTARY, DUE_TONE, FILL_LIGHT, FISH_EYE, GRAIN, GRAY_SCALE, LOMISH, NEGATIVE, POSTERIZE, SATURATE, SEPIA, SHARPEN, TEMPERATURE, TINT, VIGNETTE, CROSS_PROCESS, BLACK_WHITE, FLIP_HORIZONTAL, FILP_VERTICAL, PSTERIZE, ROTATE.

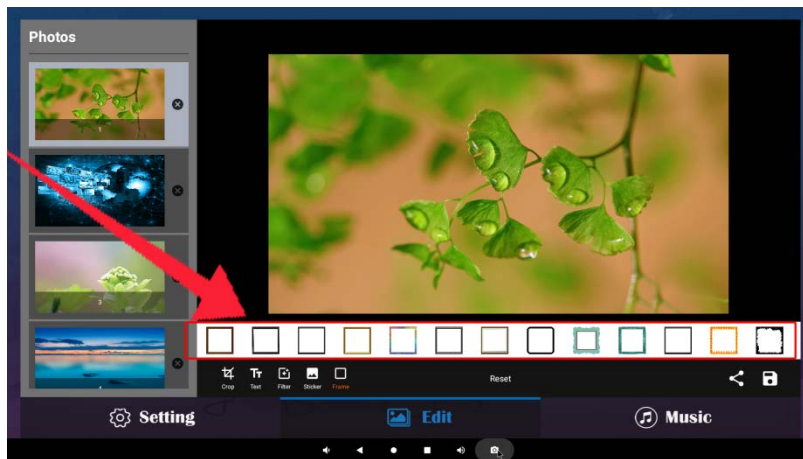

- **Sticker**

You can add seven special effects to the picture

- **Frame**

You can add different borders to the picture

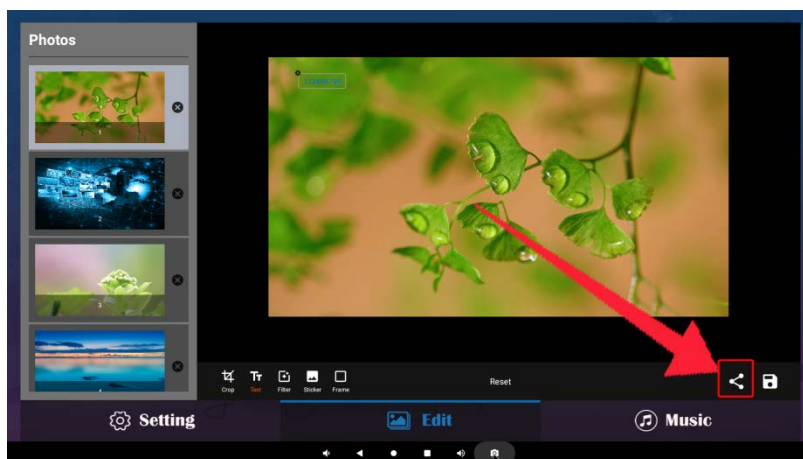

- **Reset**

Restore the original image

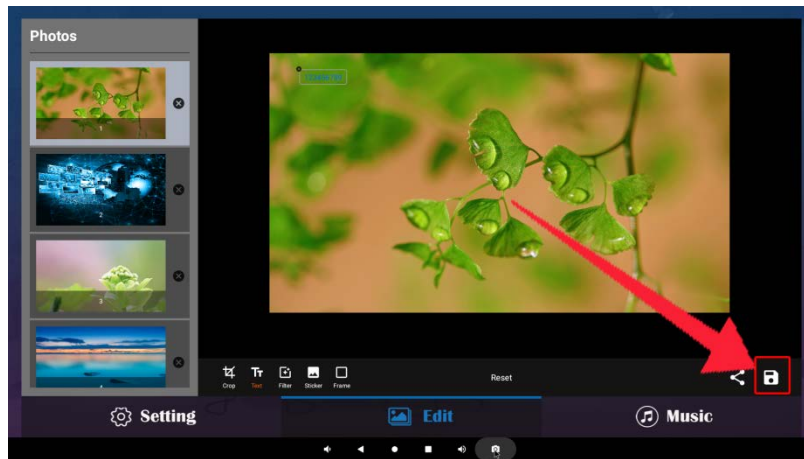

- **Picture sharing “”**

When you click the share button, you can share the picture to the corresponding APP

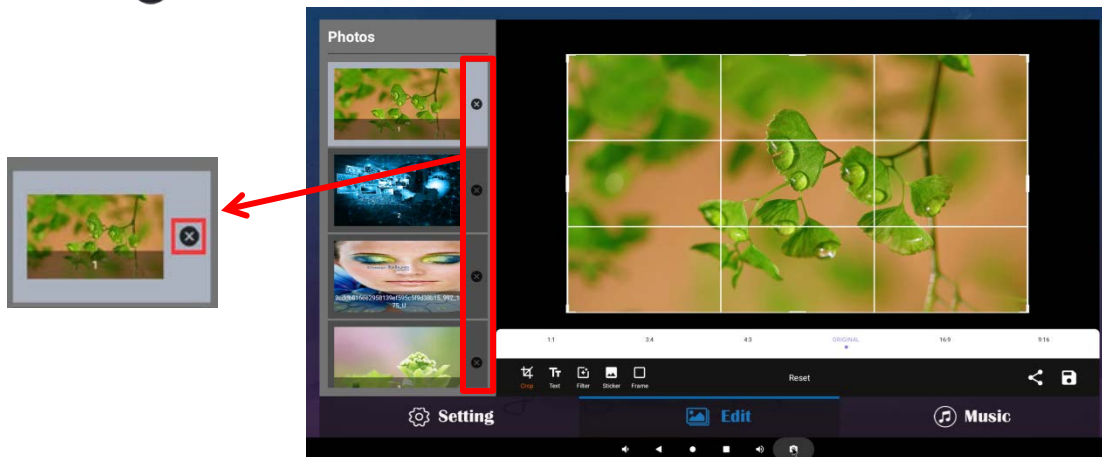

- **Pictures saving “”**

When you click the Save button, it will create a new picture

- **Image deletion**

Click “” to delete unwanted pictures

Music:

List all music files in Playlist library

- Add music to playing list music from Playlist library, you can click right arrow, music title will show the number of playlist music.
- To remove background music from the playlist, click the left arrow in the playlist

	<p>➤ Android board is defective.</p>	<p>Images> Editor > Paste</p> <ul style="list-style-type: none"> ○ Open DiViEX app and select desired transitions, slide time and looping > Play □ MX Player steps > Follow same steps as DiViEX App > MediaFolder > Video > Editor > Paste. <ul style="list-style-type: none"> ○ Open MX Player and select video to play. ○ Loop video: While the video is playing, click on the video and there should be 3 dots in the top right corner. Click on the 3 dots > play > check desired Loop option □ If all of the above have been checked and the issue is not resolved, contact a customer service representative.
--	--------------------------------------	---

Cleaning and Maintenance

1. Avoid strong vibration or impact on the product.
2. Keep the product dry to avoid possible damage by moisture.
3. Don't place the product under direct sunlight which may shorten the service life of the screen.
4. Clean screen and product by using a glass cleaner.
5. If the product will not be used for a long time, pull out the power cord to prevent the internal short circuit or other potential dangers.

FCC STATEMENT:

FCC ID: 2ASCB-DIGEDGE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
