图纸提供单位

耳一号声学科技（深圳）有限公司

项目名称

小米蓝牙项圈耳机 降噪版

版本号

V1.1

设计时间

2019.04.27

设计师

连阿婷

材质工艺要求

材质要求： 110g无光铜+哑油

白卡覆哑膜：小米专用防刮花哑膜
物料料号BOPP-YK003

牛卡 材质：秋田牛卡小米专用纸

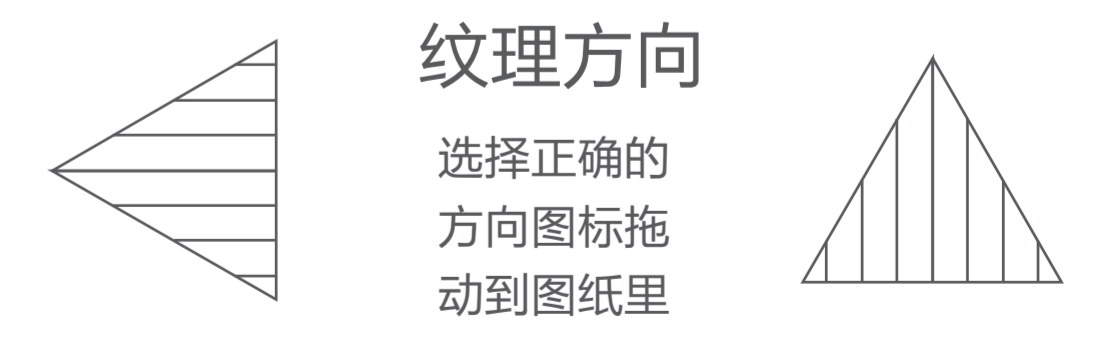

制作工序： 印刷+哑膜/水性消光油+模切+贴胶带

工艺要求： 色相正确、印迹牢固、
套印准确、各色套印
不露杂色，套印误差 ≤ 0.1mm
模切走位 ≤ ±0.5mm

(示例，具体以产品要求为准)

颜色及专色： 冷灰11C

WEEE

All products bearing this symbol are waste electrical and electronic equipment (WEEE) as defined in Directive 2002/96/EC which should not be mixed with general household waste. Instead, you should prevent human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, as approved by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the retailer or local authorities for more information about the location as well as terms and conditions of each collection point.

equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reconnect or relocate the existing antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to a power outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Safety Caution
Do not expose batteries or battery packs to excessive heat such as sunlight, fire or the like.

FCC
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) the device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment operates on a shared frequency band and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the
