## **QUICK START – Listening To AM/FM Radio**

1. Plug the power adapter into the back of the radio. Plug the other end into any electrical outlet.
2. Switch the left knob to either “AM” or “FM.”
3. Turn on the radio by turning the VOLUME (ON/OFF) knob clockwise.
4. Use the tuning knob to select your desired radio station.
5. Use the volume control knob to adjust the volume.  
NOTE: To improve the reception of your radio, adjust the pigtail antenna in the back of the radio.

## **QUICK START – Playing Music via Bluetooth**

1. Plug the power adapter into the back of the radio. Plug the other end into any electrical outlet. Turn on the radio with the Volume/On/Off knob.
2. Switch the left knob to “BT.” (Bluetooth mode) The Bluetooth indicator LED will light up blue.
3. On your phone, tablet, or other Bluetooth device, turn on Bluetooth and scan for devices. Connect to the “Vintage Radio” device.
4. Use the volume control knob to adjust the volume. (Note: You may also need to adjust the volume on your phone or tablet.)

## **FCC Warnings**

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
