| <p><b>Solder<br/>Board-Component View</b><br/>2</p> |  <p>A photograph of a small electronic component, likely a module, mounted on a blue textured surface. A black ruler is placed horizontally below the component, showing measurements in millimeters. The component is rectangular and populated with various electronic components, including a microcontroller, capacitors, and a connector. The ruler shows markings from 10 to 70 mm on the top edge and 0 to 100 mm on the bottom edge.</p> |
| <p><b>Antenna View</b></p>                          |  <p>A photograph of the same electronic component, oriented vertically, showing the antenna side. A red rectangular box highlights the antenna array at the top of the component. A red line points from a text box above the box to the antenna array. The text box contains the frequency range "433.97-443.97MHz" and a dropdown menu labeled "(Ctrl)".</p>                                                                                  |
