

<p>Solder Board-Component View 5</p>	 <p>A photograph of a green printed circuit board (PCB) populated with various electronic components. The board is shown against a blue background with a white ruler for scale. The ruler on the left indicates a vertical scale from 0 to 90 mm, and the ruler at the bottom indicates a horizontal scale from 0 to 100 mm. The board features a central microcontroller, several integrated circuits, capacitors, and connectors. A component labeled 'A91' is visible on the left side.</p>
<p>Solder Board-Component View 6</p>	 <p>A photograph of the reverse side of the green PCB. The board is populated with components including a large black integrated circuit, several capacitors, and a speaker labeled 'SPK'. The board is shown against a blue background with a white ruler for scale. The ruler on the left indicates a vertical scale from 0 to 100 mm, and the ruler at the bottom indicates a horizontal scale from 0 to 100 mm. Printed text on the board includes 'LOCKLY', 'CH-1', 'E334023', 'W-9440-0', '2020.11.21', 'PC0485F-PCB(M6) REV:A00', and 'Rev:6'.</p>

<p style="text-align: center;">Solder Board-Component View 7</p>	 <p>A photograph of a green printed circuit board (PCB) populated with various electronic components. The board is oriented vertically and is placed on a blue textured surface. A black ruler with white markings is positioned horizontally below the board, showing measurements in millimeters. The board features a central microcontroller, several integrated circuits, and various passive components. The text 'WALTEK' is visible on the right side of the board. The ruler shows a scale from 0 to 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 8</p>	 <p>A photograph of a green PCB with a large black component, likely a battery or a large capacitor, mounted on it. The board is oriented vertically and is placed on a blue textured surface. A black ruler with white markings is positioned horizontally below the board, showing measurements in millimeters. The board has several mounting holes and some surface components. The ruler shows a scale from 0 to 100 mm.</p>
