

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Radiation Emission Test Setup (Below 30MHz)

Radiation Emission Test Setup (30MHz to 1GHz)

<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	<p>A photograph showing a radiation emission test setup. A white, rectangular test object is placed on a yellow, rectangular stand. The stand is positioned in the center of a chamber lined with white, square-shaped absorbers. A red, fan-shaped antenna is visible on the right side of the chamber. The floor is grey and has yellow markings. A blue, pointed object is visible at the bottom edge of the chamber.</p>
<p>Radiation Emission Test Setup (Above 18GHz)</p>	<p>A photograph showing a radiation emission test setup. A white, rectangular test object is placed on a yellow, rectangular stand. The stand is positioned in the center of a chamber lined with white, square-shaped absorbers. A blue cable is visible on the right side of the chamber. The floor is grey and has yellow markings. A blue, pointed object is visible at the bottom edge of the chamber.</p>
