

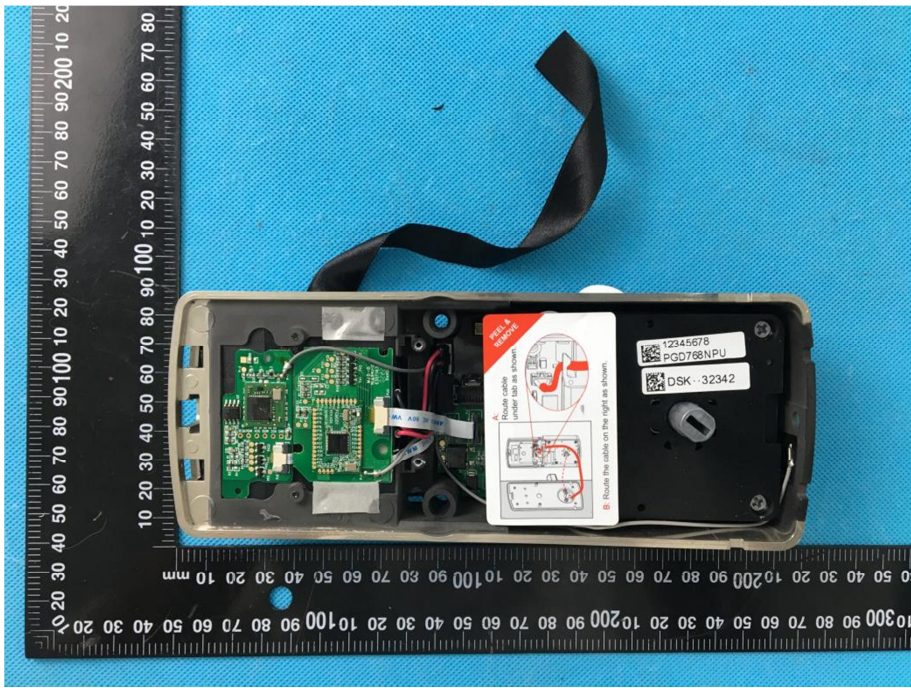

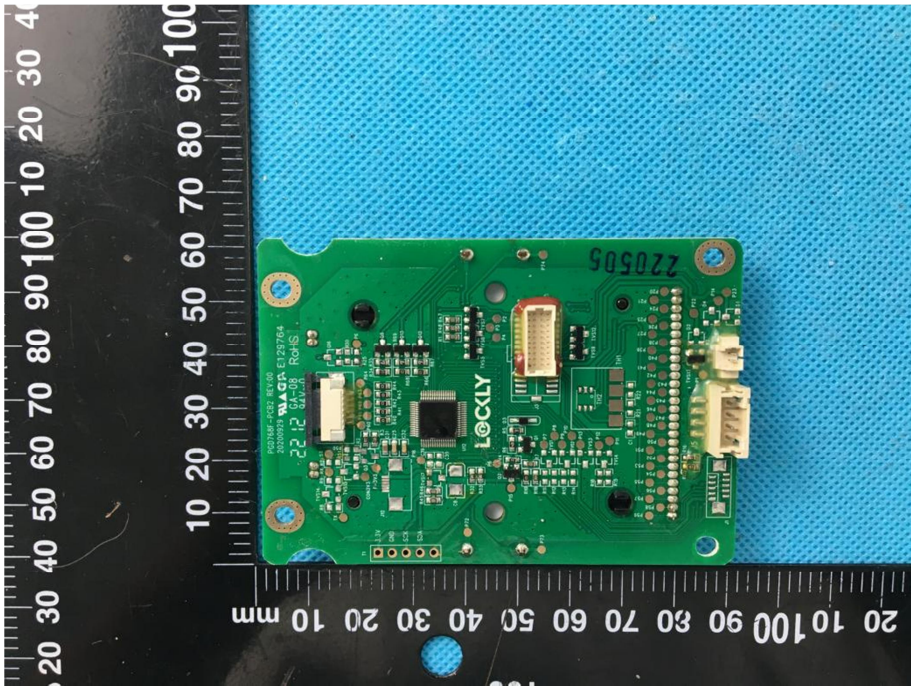

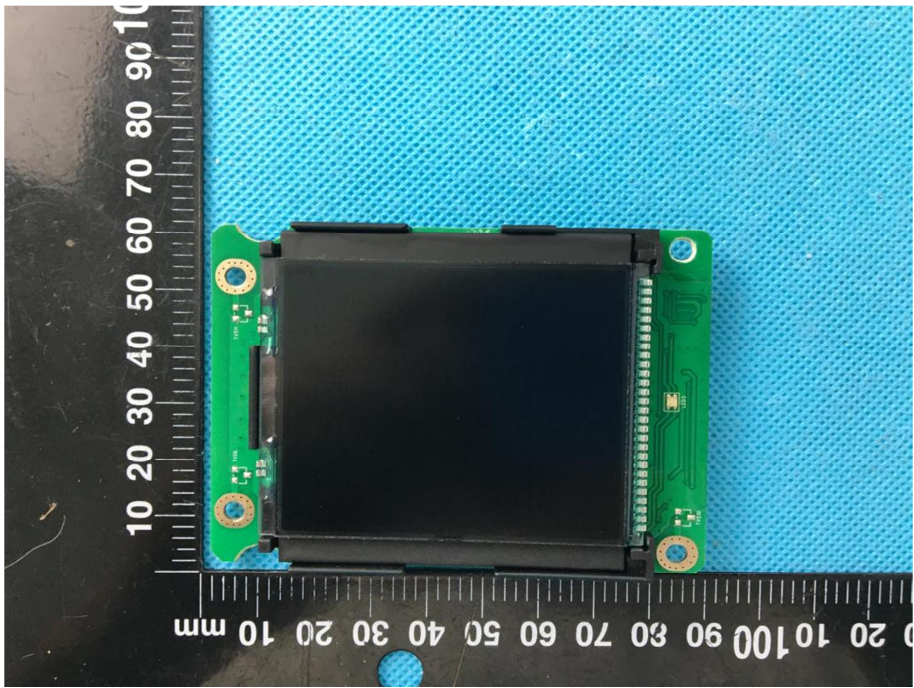

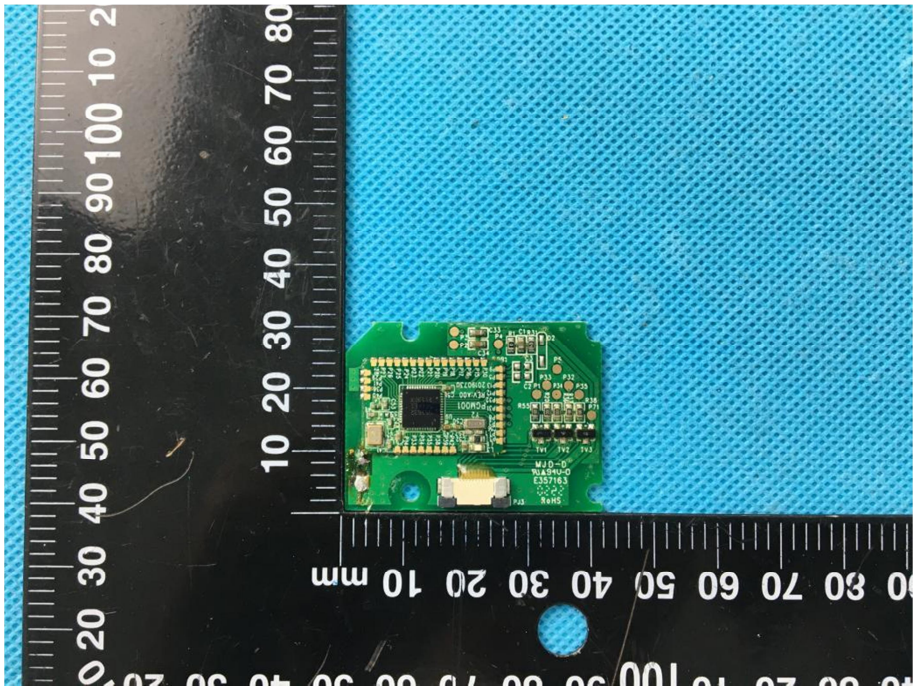

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the internal components of the EUT housing. On the left is the silver metal back cover with a circular cutout. On the right is the green printed circuit board (PCB) populated with various electronic components, including a microcontroller, capacitors, and a battery connector. A black ribbon cable is connected to the board. A black ruler with white markings is placed vertically and horizontally for scale, showing measurements in millimeters.</p>
<p>EUT Housing and Board View 2</p>	 <p>This photograph shows the EUT housing with the battery compartment open. The battery is visible, and a white label is attached to the top of the housing. The internal PCB and components are also visible. A black ribbon cable is connected to the board. A black ruler with white markings is placed vertically and horizontally for scale, showing measurements in millimeters.</p>

<p>EUT Housing and Board View 3</p>	
<p>Solder Board-Component View 1</p>	

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph showing a green printed circuit board (PCB) component with a black rectangular module mounted on it. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 80 mm. The component has four circular mounting holes, two on each side.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph showing a green PCB component with various electronic components, including a large square chip and several smaller components. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm. The component has several circular mounting holes.
