

<p style="text-align: center;"><b>Solder Board-Component View 13</b></p>	 A photograph of a small, irregularly shaped green printed circuit board (PCB) component. The component is positioned on a blue textured surface. A black ruler with white markings is placed to the left and bottom of the component for scale. The ruler shows measurements in millimeters, with the component's length being approximately 30 mm and its width about 15 mm. The component has several small components and a white connector on its surface.
<p style="text-align: center;"><b>Solder Board-Component View 14</b></p>	 A photograph of a circular black PCB component. The component is positioned on a blue textured surface. A black ruler with white markings is placed to the left and bottom of the component for scale. The ruler shows measurements in millimeters, with the component's diameter being approximately 25 mm. The component has a central square chip, a QR code, and a white connector on its surface.

<p><b>Solder</b> <b>Board-Component View</b> <b>15</b></p>	 A photograph showing a circular, metallic solder component. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler markings are visible from 10 to 50 mm on the left side and 10 to 70 mm on the bottom side.
<p><b>Solder</b> <b>Board-Component View</b> <b>16</b></p>	 A photograph showing a circular, black PCB component. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler markings are visible from 10 to 50 mm on the left side and 10 to 50 mm on the bottom side.

<p><b>Antenna View 1</b></p>	 <p>BLE Antenna</p> <p>YJ-PGD738-B1 V01</p>
<p><b>Antenna View 2</b></p>	 <p>2.4GHz Antenna</p> <p>NOTE: When properly installed, lever will be in the up position when door is locked.</p>
