

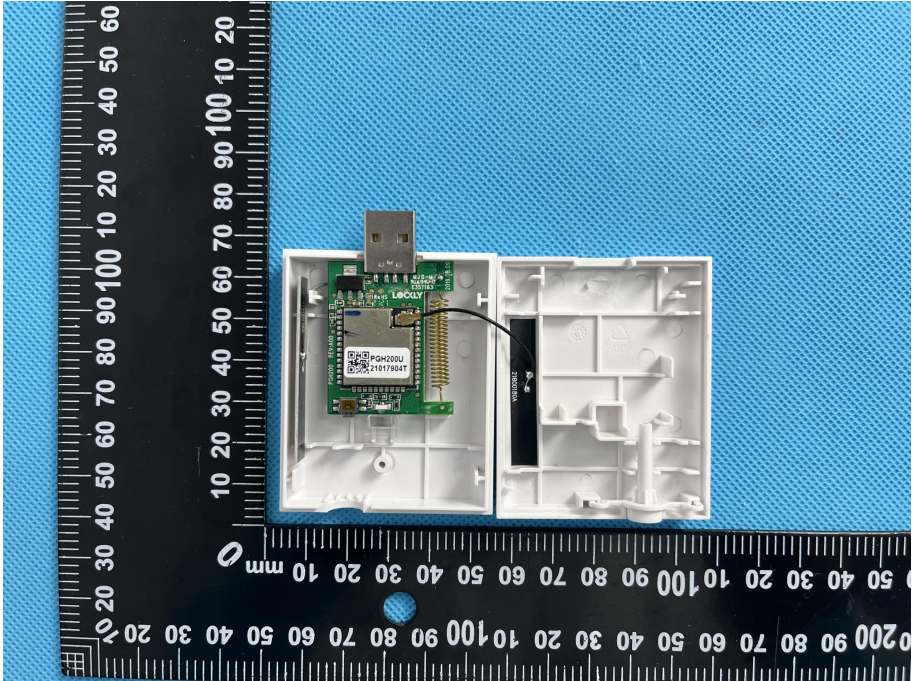

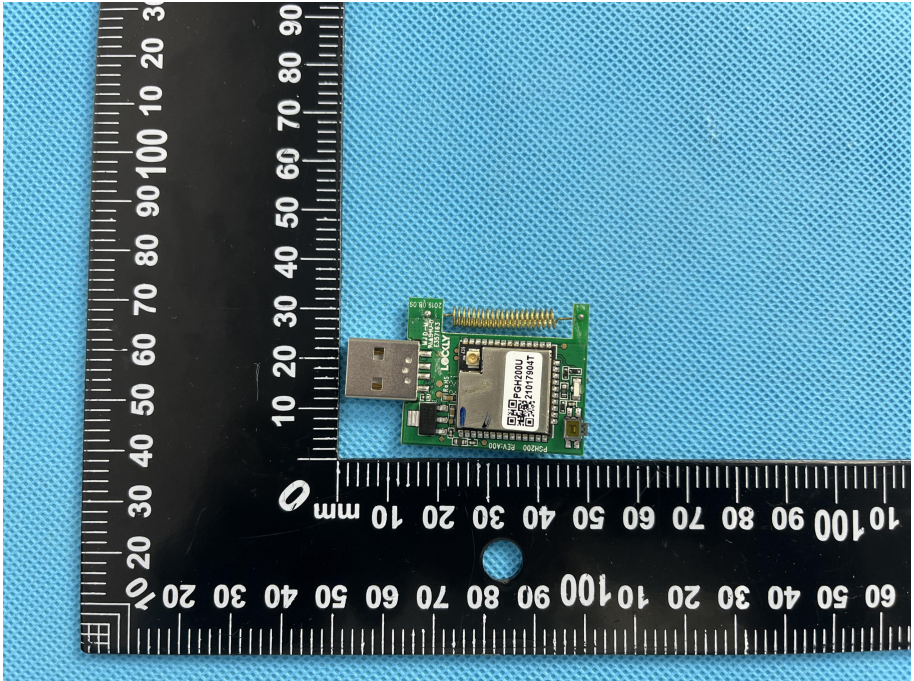

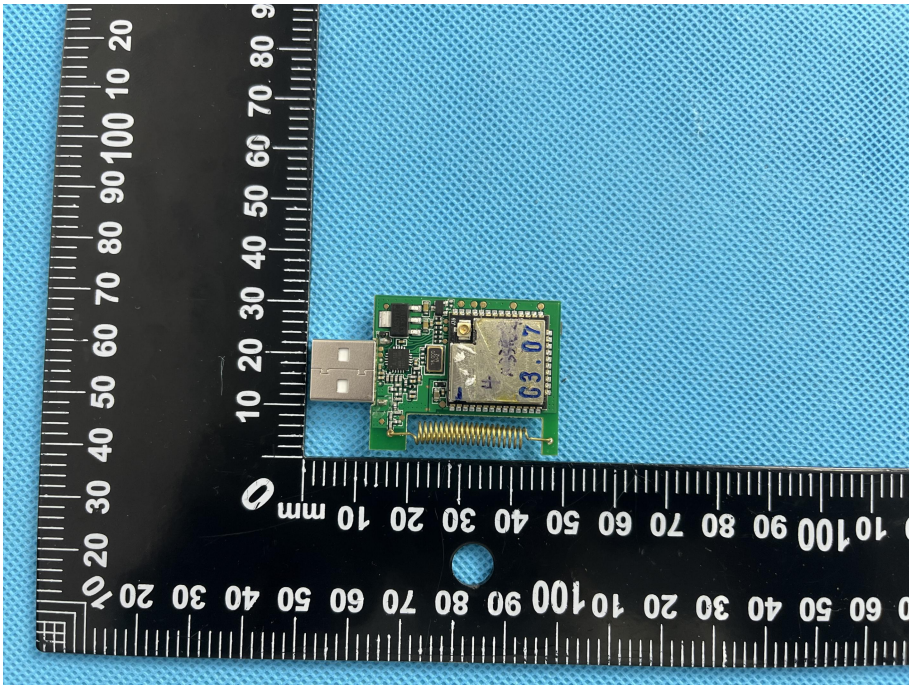

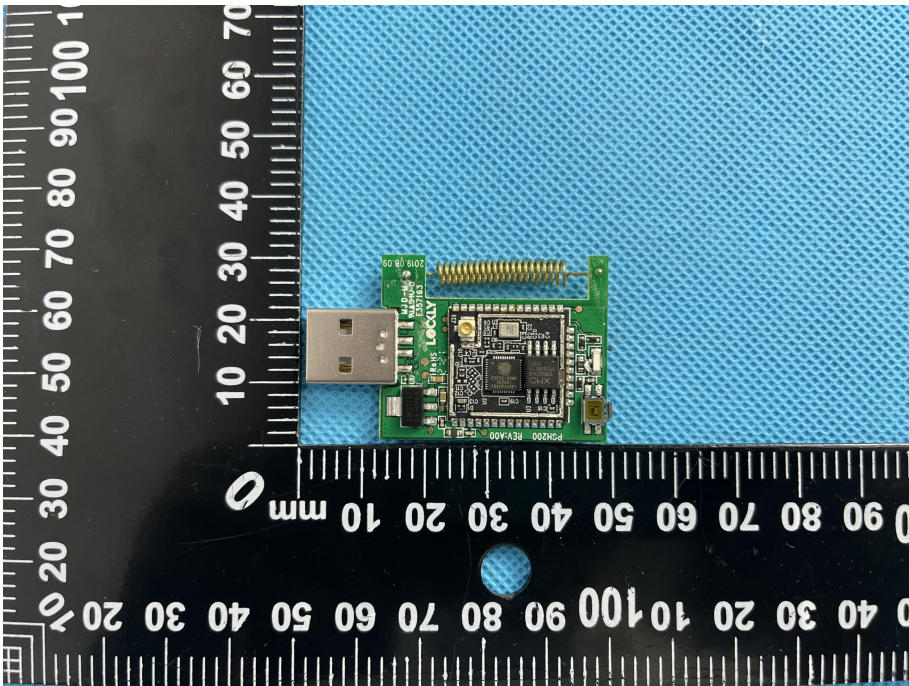

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the internal components of an EUT housing. The white plastic housing is open, revealing a green printed circuit board (PCB) mounted inside. The PCB features a USB connector on the left side and a small white component with a label that includes 'PQH200U' and '18179841'. A black ribbon cable is connected to the board. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.
<p>Solder Board-Component View 1</p>	 A close-up photograph of the green PCB component shown in the previous view. The component is mounted on a blue textured surface. It features a USB connector on the left and a small white component with a label that includes 'PQH200U' and '18179841'. The component is placed on a black ruler with white markings in millimeters and centimeters.

<p>Solder Board-Component View 2</p>	 <p>A photograph of a small green printed circuit board (PCB) component, identified as 'View 2'. The component is rectangular and features a silver USB-A connector on the left side. It is populated with several surface-mount components, including a large black integrated circuit (IC) in the center and a gold-plated pin header on the right side. The component is placed on a blue textured surface. A black L-shaped ruler is positioned around the component for scale, with millimeter markings visible. The ruler shows the component is approximately 25 mm wide and 15 mm high.</p>
<p>Solder Board-Component View 3</p>	 <p>A photograph of the same green PCB component, identified as 'View 3'. This view shows the component from a slightly different angle, highlighting the USB-A connector and the gold-plated pin header. The component is placed on a blue textured surface. A black L-shaped ruler is positioned around the component for scale, with millimeter markings visible. The ruler shows the component is approximately 25 mm wide and 15 mm high. Text on the PCB includes 'P40200 REV.A00' and '2019.08.05'.</p>
