

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. On the left is a green printed circuit board (PCB) with a circular silver-colored component (likely a battery or capacitor) and some surface components. To the right is a white plastic housing with a small cross-shaped feature. Both are placed on a blue textured surface next to a black ruler with white markings in millimeters.
Solder Board-Component View 1	 A photograph showing a close-up of a green PCB component. The component has various surface components, including a large square component, a circular component, and several smaller components. It is placed on a blue textured surface next to a black ruler with white markings in millimeters.

Solder Board-Component View 4	 A photograph showing a circular component, likely a coin or a small metal disc, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 80 mm. The component is located at approximately 10 mm on the ruler.
Antenna View	BT Antenna  A photograph showing a green printed circuit board (PCB) with various electronic components. A red box highlights a specific area on the PCB, labeled "BT Antenna". A red line points from the label to the highlighted area. A black ruler with white markings is positioned vertically to the left of the PCB, showing measurements from 0 to 100 mm. The PCB is located at approximately 10 mm on the ruler.
