

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. The housing is open, revealing a green printed circuit board (PCB) with various electronic components. The PCB is mounted on a black plastic housing. A white plastic cap is also visible. A black ruler with white markings is placed next to the components for scale. The ruler shows measurements in millimeters (mm) and centimeters (cm).
Solder Board-Component View 1	 A photograph showing the solder board-component view of the EUT. The green PCB is shown with various electronic components, including a microcontroller, resistors, and capacitors. The PCB is mounted on a black plastic housing. A white plastic cap is also visible. A black ruler with white markings is placed next to the components for scale. The ruler shows measurements in millimeters (mm) and centimeters (cm).

Solder Board-Component View 2	 A photograph showing a circular green printed circuit board (PCB) component with a central silver-colored pad and several small solder joints. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 3	 A photograph showing the same circular green PCB component from a different angle. It features a central silver-colored pad with five small holes, a white triangular marking, and a small rectangular component on the right side. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 4	 A photograph showing the solder side of a circuit board. A CR2450 3V Lithium Battery is placed on the board for scale. A black ruler with white markings is visible, showing dimensions in millimeters. The board is blue with a fine grid pattern.
Antenna View	 A photograph showing the antenna side of the circuit board. A green PCB with various components is visible. A red box highlights the BT Antenna area, with a red line pointing to it from the label "BT Antenna". A black ruler with white markings is visible, showing dimensions in millimeters. The board is blue with a fine grid pattern.
