LK06S DIGITAL PIANO

USER MANUAL

Safety Guideline

Before playing the digital piano, please read the following content.

***Please put this instruction book in a safety place, in order to read it in the future.**

Warning

In case of getting seriously injured or killed because of electric shock, short circuit, damage, fire or other dangers, please obey the following warnings. These warnings include but not limited to the following situations:

Power/Electric Cable

- * The rated voltage of this device is fixed. The required voltage is printed on the nameplate of this device.
- * Check the plug regularly, clean the dirt and ash piled up on the plug.
- * This digital piano only matches with the provided power cable and plug.
- * Please don't put electric cable beside heaters or radiators. Don't bend too much or cause damage to electric cable. Don't put any heavy stuff on the wire. Don't put it where it may be run over or trampled to make people stumble.

Do Not Open

- * Please do not open this device and try to dismantle inner components or transform it in any ways. This device does not include any components for users to fix. If you find any problems, please stop using and ask our qualified service staffs to examine and repair the device.

Warning about humidity

- * In case of any liquid splashing into the device, please do not get this device rained or use it nearby water, in a wet surrounding or put a container of liquid on it. If any liquid, like water, splashes into the instrument, please cut off power and pull out the electric cable from the AC socket immediately. Then ask our qualified service staffs to examine and repair the device.
- * Do not plug with wet hands.

Fire

- * Do not place any burning stuff, like candle, on the instrument. It may cause fire.
- * When sensing any unusual situations, such as worn away and damage of power cable, sound suddenly stops during playing and the smell and smoke it causes, please turn off the power immediately and pull out plug from the socket. Ask our qualified service staffs to examine and repair the device.

Attention

In case that people around you and you get injured or get loss of device and property, please obey the following basic instructions. These instructions include but not limited to following situations.

Power/Electric Cable

- * When pulling out plug from socket, please grab the plug instead of power cable. Drawing directly will cause damage to the power cable.

- * If not using the instruments for a long time or during a lighting storm, please pull out plug from the socket.
- * Do not connect the instrument to the socket by multiple connector, or it will lower the sound quality, or it will make socket overheat

Assemble Use

- * Please carefully read the attachment that explains the assemble process. If assembling the instrument in a wrong order, it will damage the instrument and hurt the user.
- * Please connect the external equipment while the digital piano is off.
- * Before using, please install the supporting screw and adjust it close to the ground, in case of trampling pedal.

Installation place

- * In case of deformation of control panel and damage to inner components, please do not place this device in an environment with a lot of dirt, vibration, extreme cold and hot (such as, direct sunshine, closing to heater and inside a car under the burning sun).
- * Please do not use this device near the television, radio, stereo, cell phone or other electronic devices. This may make noise on the device itself and television or radio nearby.
- * Please do not put this device on unstable place, or it may cause a sudden fall down.
- * Before moving the device, please pull out all electric cables from the socket.
- * When you set this device, please confirm the AC socket going to be used is reachable. The device should be connected to the socket with protecting grounding connection. If you find any problems and questions, please immediately turn off the power and pull out the plug from the socket. Even

though the power is turned off, there is still a small amount of electricity current flowing through it. If you decide not using this device for a long time, please pull out the plug from AC socket.

- * This product uses all extreme power switch as a device to cut off from network power. The power switch button is on the right side of the keyboard.

The contents in this hand book is only for introduction purpose. It may be different from the instrument you buy.

Technical Specification

Sound source: DSP chip, FZOLF308 Grand piano sound sampling. Five layers dynamic, String overtone resonance analog audio technology.

Keyboard: 88 keys dynamic curve hammer action weighted keyboard

Polyphony: 192(Stereo)

Demo: 130 demos, (Classical piano music+Sound demo+Rhythm demo)

Touch: 5 piano standard touch curves, Default、 Light、 Standard、 Heavy、 Touch on/off.

Sound: 166 sounds with 128GM standard MIDI, 27 folk music, 10 series percussion music, 1 effect voice.

Rhythm:130.

Rhythm control: Auto Chord Switch, SYN start, SYN stop, A fl 1, B fl 2, Prelude\Finale.

Record function: 2 record tracks, record、 replay supported, Maximum notes for one single song is 22000, MIDI, 64 tracks and 16 channels, Support MIDI 0&1 file.

Sound Control: Grand piano tone, Dual voice, Double keyboard, Split mode, Split point.

Dual voice: Dual voice can be set when playing.

Keyboard Split: Double piano, Piano duet, String ensemble, Wind orchestra, Piano+Violin, Guitar+Violin, It can make different setting.

Volume control: Master volume, Accompany volume (0-32), adjustable volume control when playing at night.

Transpose: 25 (0,-/+12)

Octave: 3 octaves,-1,0,+1

Effect function: 64 reverb, 64 chorus,127 Tremolo effect.

Metronome: Dynamics click as per beat,1,2,3,4,5,6,

Tempo: 20-280

Bluetooth: Bulit in Bluetooth.

Pedal: Imitated traditional grand piano pedal function, Soft, selected sustain, sustain.

Interface: USB MIDI jack, pedal jack, Power jack, Headphone jack,Line IN /OUT.

Power: DC12V/2000mA

Dimension: 1360*410*790mm

Net weight: 42.5kg

Accessories: Power Adapter, Guarantee card, Quality certificate, User manual

Trouble Shooting

Problem	Cause/Action
There is noise when turn on/off the power	This is normal , please don' t worry.
After turning on, no sound is produced when press the keys	Please adjust the master volume or check if there is a headphone connected in the device.
The note and its timber are of a little differences under the same patch	This is normal.
When using the sustaining function, some patches are different long or short	This is normal.
The volume is too low	Please adjust the master volume knob.
MIDI transmission function fail when the MIDI Cord connecting well	This is normal.
Noise caused when near phone	This is normal, In order to avoid it please keep away when calling.
When playing piano, the pitch is not in accordance with the keyboard	Please check if you have activated the SPLIT mode function and turn it off.
Pitch can not be changed when playing piano, and the pitch is not in accordance with the keyboard	Please check if you have activated the SPLIT mode function and set the split point to the highest level, Turn off the split mode function and set the split point back to the original.
Distortion or intermittent when playing demo songs	The cause could be the overheating of the speakers,when you play for a long time with the maximum volume, at this point please lower the volume or turn the piano off for a while.
Two tones come out at the same time when playing	Dual sound function might by activated, please turn off it to avoid it.
Pitch wrong	Please confirm the pitch setting or set it to “Zero”
No automatic Accompaniment and Chord	Please confirm the accompaniment volume or if the Chord function is turned on.

Problem	Cause/Action
Dynamics is not same as before	There are 5 piano touch curve, Default、 Soft、 Standard、 Hard、 Touch off. You might choose the wrong dynamics. Please set the one you need.

NOTE: This instrument has been tested and it is according with the relevant regulations of EMC. Wireless communication might caused the interference with this instrument. Or the instrument might caused the interference with wireless. The user should adopt the following measure to improve it.

- Relocation or adjust the receiving antenna.
- Keep a distance between the device and receiver.
- Connect the receiver and the device cord in different plug.
- Please consult your dealer or experienced wireless technician.

Caution: Do not modified the device by yourself.

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
