

# Wireless Earphones User manual

## How to connect:

**Pair the wireless earphones for the first time:**  
 1. Hold on power button until red and blue lights are flashing. Earphones will then enter in pairing mode.  
 2. Open Bluetooth settings on mobile phone and search for new Bluetooth devices "LM-M9".  
 3. Select newly found device and a voice will sound when "Connected".  
 4. If unsuccessful, repeat steps in order to connect.

FCC ID:2ASKA-LM75158

Model:LM-M9

## How to use:

## Specifications:

Transmission distance: 10m  
 Trumpet: Ø14mm  
 Playing time: 3h  
 Sensitivity: 100±3dB S.P.L at 1KHZ  
 Standby time: 300h  
 Impedence: 32Ω  
 Battery: 80mAh  
 Frequency range: 2402-2480Mhz  
 Charging time: 2H  
 Output Power: 0.5943mW

## Functions:

MFB = Multifunction button

ON/ OFF	Power on	Long press MFB for 3 seconds, blue light will flash.

## Industry Canada Statement:

This device complies with ISED's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with ISED's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### Radiation Exposure Statement:

The device complies with the Canadian portable RF exposure limit set forth for an uncontrolled environment and is safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user's body or set the device to lower output power if such function is available.

### Federal Communication Commission Interference Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to connect the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not

expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must be co-located or operating in conjunction with any other antenna or transmitter.
