Re: Class II Permissive change for FCC ID 2ASLSRU700A10

Puloli is filing for Class II Permissive Change based on Change of ID granted from original grantee of 2AJMTGPY01R. For the Class II Permissive Change, Puloli represents the following:

- No hardware changes or circuitry changes were made to original module.
- Only modification to the module is firmware change to activate additional channels and transmit modes.
- The testing was done with supporting hardware for an end product that will only be used by Puloli, Inc. Puloli is not a module manufacturer.
- The end product label affixed to the product is shown in End Product Label photo file.

Sincerely,

Name: kethees ketheesan
