WARNING: This future included with device contains a Neodymium magnet. Magnets could affect the functioning of pacemakers and implanted heart defibrillators. If you use these devices, keep sufficient distance from magnet. Warn others who wear these devices from getting too close to magnets.
 -Magnets may be part of its adhesive base permanently if exposed to temperatures above 175 ° F (80° C).
 -Magnets produce far-reaching, strong magnetic field. They could damage TVs and laptops, computer hard drives, credit and ATM cards, data storage media, mechanical watches, hearing aids, and speakers. Keep out away from devices and objects that could be damaged by strong magnetic fields.

FCC Statement
 This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
 This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 -Reorient or relocate the receiving antenna.
 -Increase the separation between the equipment and receiver.
 -Connect the equipment into an outlet in a circuit different than that to which the receiver is connected.
 -Consult the dealer or an experienced radio/TV technician for help.
 Shielded interface cable must be used with the equipment in order to comply with the limits for a digital device pursuant to Subpart B of Part 15 of the FCC Rules. Specifications and design are subject to change without any notice or obligation on the part of the manufacturer.

Industry Canada Statement
 This device complies with ICES (Interference-Causing Equipment) Class B. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Radiation Exposure Statement:
 This device complies with RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
 When operating the device, a minimum distance of 0mm should be maintained between the radiator.

Disposal of Electric and Electronic Equipment
 Applicable in the EU and other European countries with separate collection systems.
 This equipment contains electric and/or electronic parts and must therefore not be disposed of as normal household waste. Instead, it should be disposed at the respective collection points for recycling provided by the communities. For you, this is free of charge. If this equipment contains non-rechargeable (disposable) batteries, these must be removed before and, if necessary, taken to be disposed of according to the relevant regulations (see also the respective comments in this user's instructions). Further information about the subject is available at your community administration, your local waste collection company, or in the store where you purchased this equipment.

Caution: There are no user controls, adjustments or procedures. Performance of procedures other than those specified herein may result in access to radio frequency signals.
 This product contains no user serviceable controls.
 This product must not be opened or modified by the consumer. This product must be returned to the manufacturer for service.
 This device contains Interference-Causing Equipment (ICE) that complies with Innovation, Science and Economic Development Canada's Interference-Causing Equipment (ICE) Class B. Operation is subject to the following two conditions:
 (1) This device may not cause interference.
 (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Device specifications and design are subject to change without notice or obligation on the part of the manufacturer.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
