

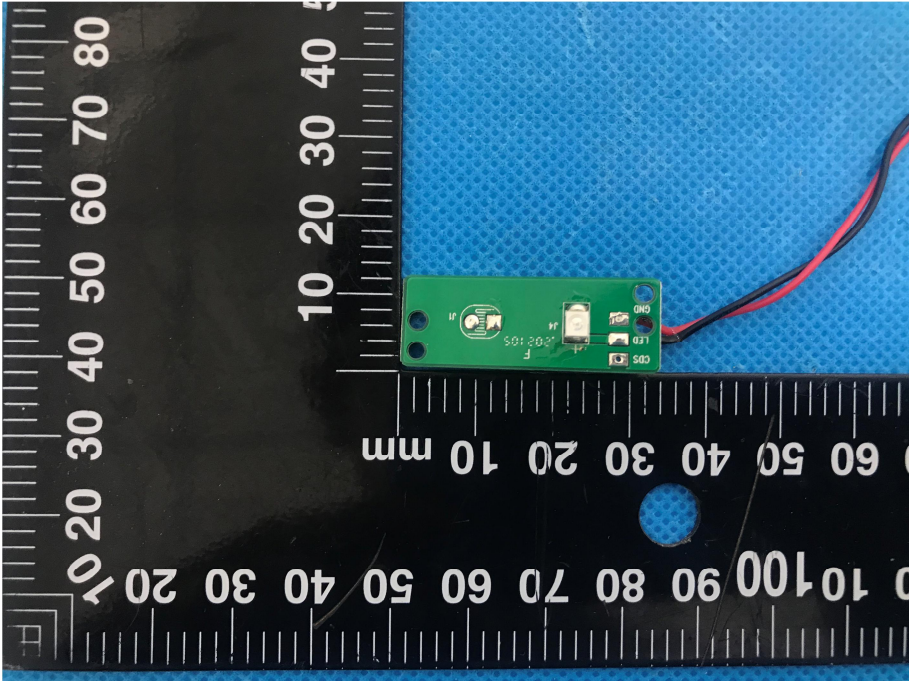

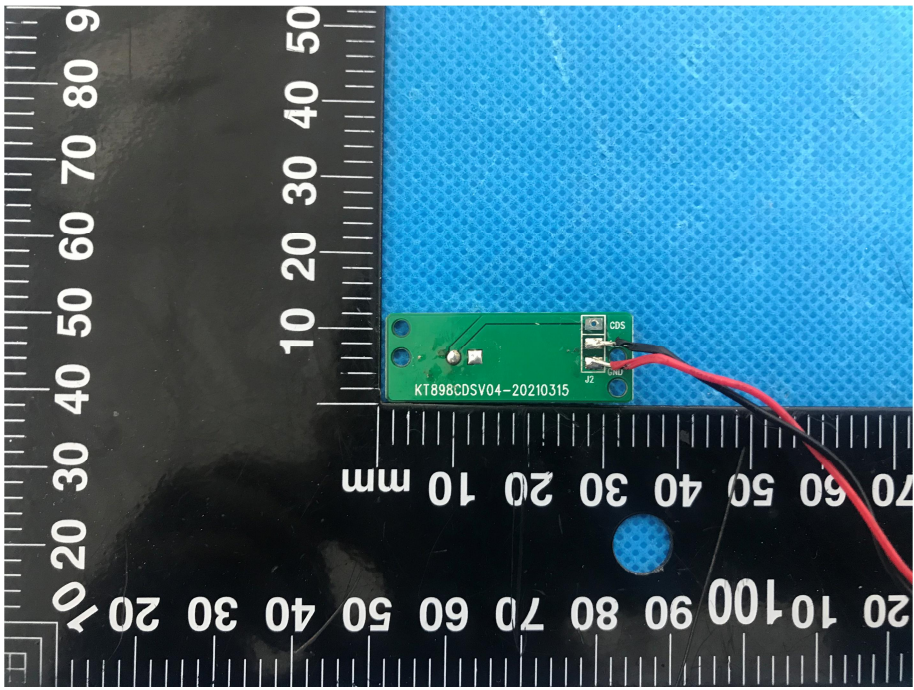

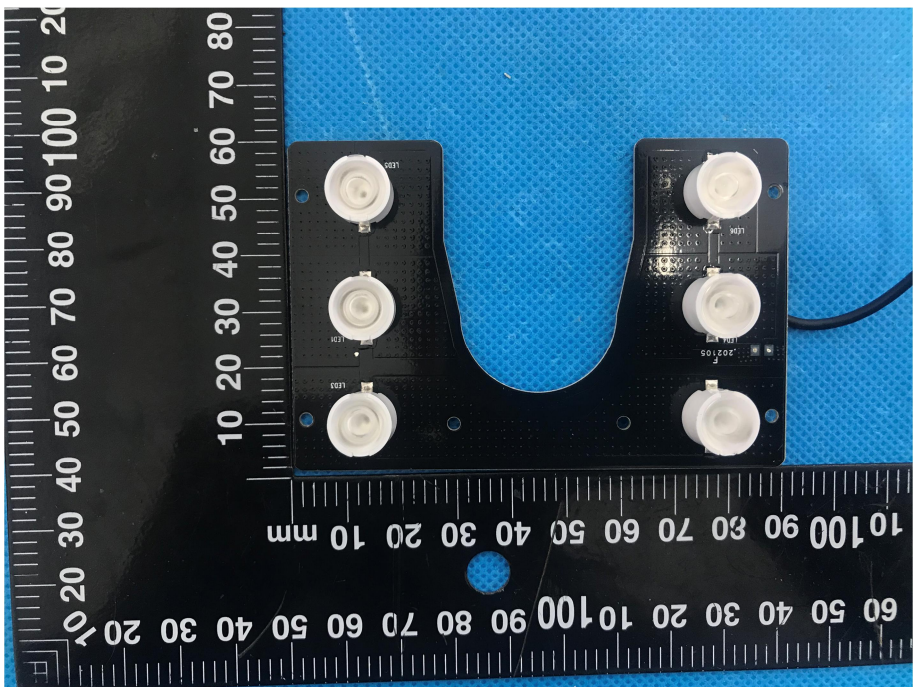

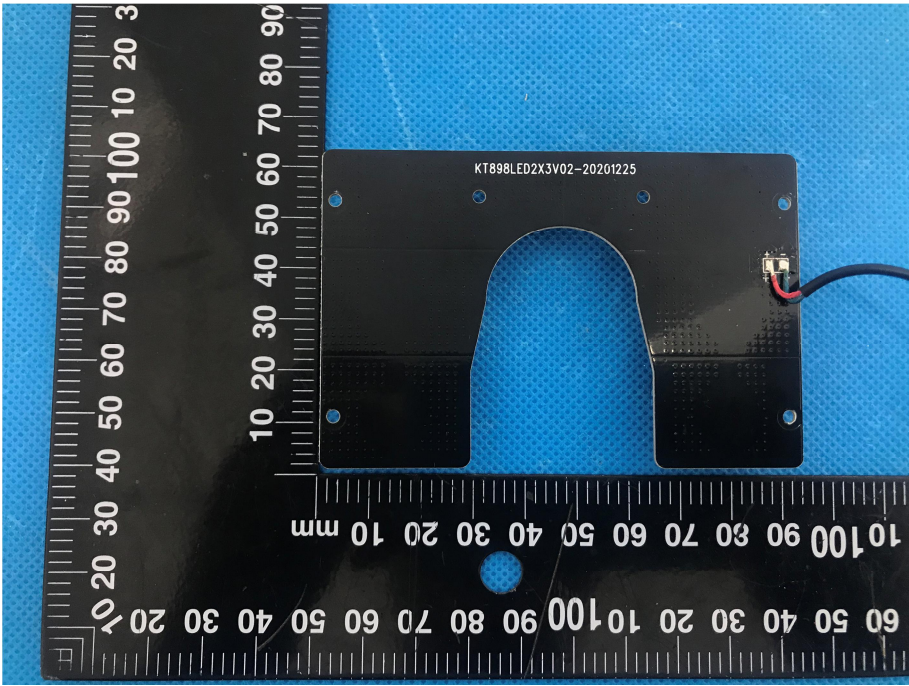

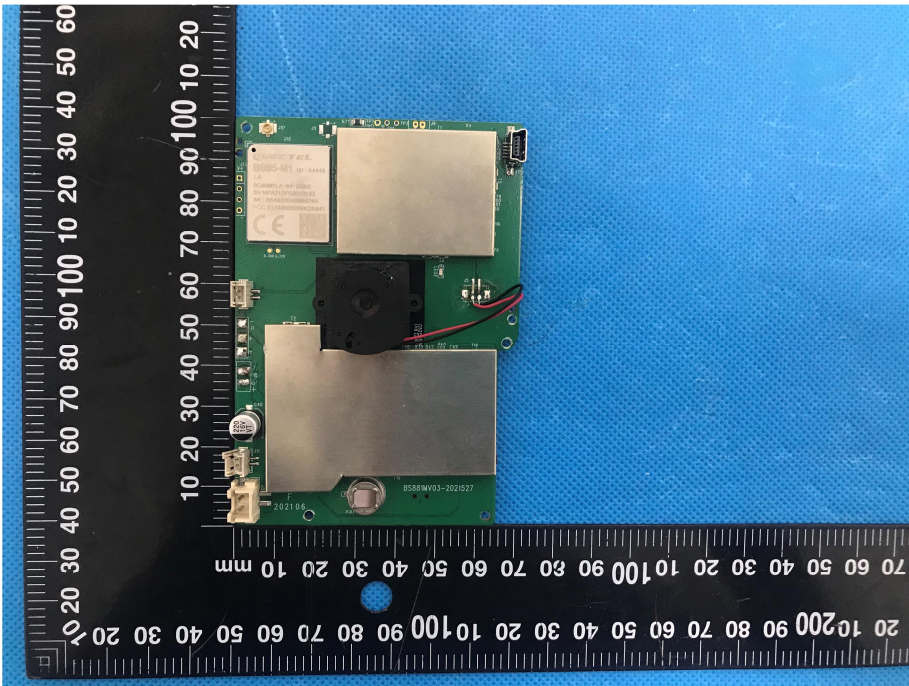

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the internal components of an EUT (End User Terminal) housed in a grey plastic enclosure. The enclosure is open, revealing a green printed circuit board (PCB) with various electronic components, including a camera lens, a microphone, and a battery. A black metal shield is visible on the left side of the board. A black ruler is placed vertically on the left side of the enclosure for scale, showing measurements in millimeters. The background is a blue textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of a small green PCB component soldered onto a larger board. The component has several pins and is labeled with "GND", "LED", "CBS", and "F". A red and black wire is connected to the component. A black ruler is placed vertically on the left side of the component for scale, showing measurements in millimeters. The background is a blue textured surface.

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a green PCB component, model KT898CDSV04-20210315, mounted on a black solder board. The component has a 'CDS' label and two pins labeled 'J2'. Red and black wires are connected to the pins. The board is placed on a blue textured surface with a black ruler for scale. The ruler shows markings from 0 to 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a black PCB component with four white circular connectors, labeled L101, L102, L103, and L104. The component is mounted on a black solder board. The board is placed on a blue textured surface with a black ruler for scale. The ruler shows markings from 0 to 100 mm.</p>

<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph of a black PCB component with a large semi-circular cutout. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's width being approximately 100 mm. The component has four blue circular marks at the corners and a small connector on the right side with red and black wires. The text 'KT898LED2X3V02-20201225' is printed on the top edge of the component.</p>
<p style="text-align: center;">Solder Board-Component View 5</p>	 <p>A photograph of a green PCB component with various electronic components, including a large silver heat sink, a black component, and a small connector. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's width being approximately 100 mm. The text 'B588WY03-20210527' is printed on the bottom edge of the component.</p>
