

Product Name :	GravaStar Wireless Receiver
Product Model :	GravaStar 4K
Function:	Upgrade the polling rate of the mouse to 4K Hz
Product Specifications:	Increase the mouse RF mode polling rate to 4KHz,increase the mouse speed by four times comparing to the normal 1KHz.

Category	Function/Performance	Parameters/Description
Compatible with system win7 or above/iOS10.0 or above		
Atmosphere light	RGB light	Pairing Status: Slow flashing white light for 20 seconds, once per second. Working Status: Displays mouse battery level, 4.01V-4.2V: Green, 3.55V4-.0V: Orange, 3.0V-3.54V: Red. Standby Status: No light
Signal	Operating Frequency Band	2.4G
Manufacturer: ZhuoYe ChuangYi Co., Ltd Address: Room 602-1, Building 6, Shenzhen Bay Eco-Tech Park, Nanshan District, Shenzhen City, Guangdong Province, China MADE IN CHINA	Made in China	V 1.0
FCC :		

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

2.4G Connection: Slide the switch on the bottom to the left for wireless mode inserting the 1K Receiver into the computer's USB port and you can start to use the mouse. If you want to connect with the 4K Receiver, simultaneously press the left, center, and right buttons for 3 seconds on the Receiver. The blue light will slowly flash once every 1 second for 20 seconds.

Connect the USB wireless receiver to the computer.
Use the mode switch button and slide it to the left for 2.4G mode.
