Setting Sensitivity of Controller

When you use Music or Tape functions, the change of led strip lights can change with the rhythm of music, the problem you encountered may be that the sensitivity of the controller has been set low, so the sensitivity to sound is not sensitive. On the Tane, select the Device Mic. click '+' to increase its

Common Troubleshooting

*The controller was connected the power, but not light up: 1. Check the input power supply: please use the power adapter that we equipped or other adapters with the same specification as ours. The input equipped or other adapters with the same specification as ours. The input voltage must meet the voltage requirement of the led strip lights. When the input voltage is lower than requirement, the led strip lights will not be turn on, while higher voltage may damage the circuit. The output power of the adapter (KW value) must equal to, or higher than the power of the led strip lights.

2.Check whether the connector is connected correctly with the strip lights.

Make sure each interface is connected correctly.

3. Check whether the remote control is open.

Attentions

1.The led strip lights must be connected correctly ased on insta**ll**ation guide. .Led strip lights must be used under rated DC vo**l**tage.

3. The light strips are not water proof, only suitable for indoor uses 4. Make sure the surface you are going to paste strip is clean and dry.

Thank you in advance for ordering our products. Before attaching the led strip lights to the wall, please plug in the power to test if the lights work well. Hope below tips will be useful to you. If you need more help, you can contact the seller after sales directly on Amazon by "Orders" → " Sales" → " Contact

While plugging in the power adapter for the first time, why the lights keep flashing rapidly?

A1: The lights maybe on Mic/Music Mode. This is a very interes function. There's a built-in high sensitive microphone in the controller to detect music and surrounding sounds. Lights will change colors and flash according to the music beats and sounds. Very suitable for parties. If you need to stop the Mic/Music Mode, please press the "M" key on controller or select any other modes on App to stop it.

How could I trim the needless length?

A2: There's a trimming mark between every eight beads. If you trim, you must trim by the cutting mark. But the trimmed "needless length" will no longer work unless being soldered or connected with solderless connector. (The connector does not come with the the package.)

Can led strip lights stick to any surface?

A3:No, please make sure the surface is flats, mooth and clean before sticking the led strip light on the surface.

Are led strip lights waterproof?

A4:No, our led strip lights are only suite for indoo

Why the lights couldn't turn off neither by APP nor by controller's on/off key?

A5: If so, please go to your Amazon order details page "Orders" → 'Sales" →" Contact Seller", for more information and help.

limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful nterference to radio communications. However, there is no guarante that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. Changes or modifications not expressly approved by the party

responsible for compliance could void the user's authority to operate

to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the
