

Difference Statement

GS886F, GS886F-C

The PCB Layout of the two models is exactly the same. Only the appearance is different. GS886F has no pattern on the surface, and GS886F-C has a pattern on the surface. We choose GS886F for RF testing

July 20, 2022

A handwritten signature in black ink that reads "Cynthia Xia". The signature is written in a cursive, flowing style.
