A black, oval-shaped electronic device, possibly a portable music player or a small radio, is shown. A white rectangular label is affixed to the top surface. The label contains text regarding FCC compliance. The device has a textured black finish and two circular indentations on the top surface. A hand is visible at the bottom left, holding the device. In the background, there is a white fabric and a red and white striped object.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
