

# Bamboo wireless charger instructions

Product name: Bamboo wireless charger

Product mode: KT-BW01

Product size: 27\*14.5\*1.5cm

product packaging

# Bamboo wireless charger

- Product model :KT-BW01
- Input : DC5V/2A ; 9V/2A ; 12V/2A
- Output : 5W/7.5W/10W/15W ( Max )
- Product name :Bamboo wireless charger
- Product size :270\*145\*15mm
- Charging distance :4.9mm

CE FC Qi  
MADE IN CHINA

- Environmental protection
- Wireless Charger
- Stable recognition
- Fast heat dissipation
- Overcharge protection

BAMBOO WIRELESS CHARGER

Electrical properties

Operation Temperature	-10~40℃
Storage Temperature	-45~75℃
Efficiency	>70%
Operational Frequency	127.6KHz
Input	DC 5V/9V/12V 2A
Output	5W/7.5W/10W/15W
Charging distance	4-9mm

Product function diagram

• LED Modes

LED CONTROL OPTION	LED	OPERATIONAL STATES					
		STANDBY	POWER TRANSFER	CHARGE COMPLETE	FAULT	DYNAMIC POWER LIMITING	FOD Warning
	LED1 green	on	off	on	off	off	off
	LED2 red	off	on	off	Blink	Blink	Blink

Notes: Use the QC3.0 adapter for the best user experience.

## **FCC Statement**

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## **Radiation Exposure Statement**

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
