UK

RE: FCC Limited Modular Approval  
FCC ID: 2AT3JFC6100

To Whom It May Concern:

Please be advised that the manufacturer requests limited modular approval for the transmitter concerned as the module does not have a shielding can over its RF circuitry. It is for this reason that the manufacturer will apply for limited modular approval and have control over the installation of the module.

We will have full control of the installation of the module as it will only be installed by trained employees within Design Reality Limited.

Thank you for your attention to this matter.

Yours faithfully

Graham Wilson

Design Director
