

# User Manual

Thank you for choosing our products, please kindly read this manual before use.

## Specification

Input: AC-DC 5V /1A

Output: 5V /1A

Power: 5W

Conversion Efficiency:  $\geq 70\%$

Launch Distance: 4-8MM

Product Compatibility :Wireless charging devices  
which conform to Qi Wireless  
Charging Standard

## How it works

### 1.Connection Instruction

- \*Connecting power source
- \*Put device on wireless charging area
- \*Lighted blue lamp indicates the device under charging status

### 2. Power Indicator Instruction

- \* Red lamp light up shows it is ready to charge.
- \* Lighted blue lamp indicates the device is under charging status
- \* Blinking blue lamp shows device is not placed in the charging area properly or the device is not supported
- \* lighted red lamp indicates the device is fully charged

## Notice

- \*It is normal phenomenon of fever during charging process.
- \*Please kindly take off the device after full charge to protect device and wireless charger

## Cautions:

1. Do not store or use it in high temperature, humidity or dirty area
2. Do not store or use it in strong magnetic fields
3. Keep out of the reach of children
4. Do not expose to water or heavy dust, keep it dry and clean
5. Non-professional workers do not maintenance device without authorization

## **FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
