

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help
- This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Product Overview

Power On

Before first use, please charge your Noble Falcon ANC TWS Earbuds to make sure there is sufficient charge for pairing and use.

If there is sufficient charge, take out the earbuds from the charging case, the earbuds will be power on automatically. The orange & white indicator light will light up for one second.

If the earbuds are power off, press both earbuds MFB button lightly to boot up, you will hear a "Power on" voice prompt.

Power Off

To turn off the earbuds, long press the MFB button for 5 seconds to hear "dong dong" and release, you will hear a "Power off" voice prompt. The orange indicator light will light up for one second.

If the charging case has sufficient charge, the earbuds will automatically turn off when placed in the charging case.

How to Pairing

Method 1

1. Take out the earbuds from the charging case, the earbuds will automatically power on and enter pairing mode with orange and white indicator lights twinkling alternately.
2. Enable the bluetooth of your phone to search "Falcon ANC" and then click it for pairing, they will be connected.

Method 2

1. When the earbuds are not connected and in standby mode, double-tap the left or right MFB, they will enter pairing mode with orange and white indicator lights twinkling alternately.
2. Enable the bluetooth of your phone to search "Falcon ANC" and then click it for pairing, it will be connected.

Note: 1. If the earbuds are connected to one device already, put the earbuds into the charging case and take out, the earbuds will connect the device automatically; If the connection is unsuccessful, the earbuds will go into pairing mode automatically.

2. Disconnect the earbuds from the connected device, the earbuds will go into pairing mode automatically.
