

# Bluetooth Speaker

PTUV-02

## 1. Brief introduction:

This system is a music player office chair with wireless Bluetooth connectivity function.

1. With Bluetooth music module, in order to connect smoothly within maximum 10 meters straight line.
2. Stereo 5W X 2 channel amplifier high-fidelity audio output.Support for subwoofer output
3. Support audio input and headphone function

## 2. Structure Description:

The system consists of left and right channels of high quality speakers, a main control box, a charger, a motor, Audio line.

### 3. Instructions

STEP 1: Plug the adapter output into the 'DC PORT' and plug the adapter into the home outlet.

STEP 2: Turn the unit ON. When the green light flashes and you hear the prompt tone, the Bluetooth pairing mode is turned on. Turn on your phone's Bluetooth and find the following device name "gamingchair" and connect. (Note: It is only connectable to one device at one time.) When the Bluetooth device is not connected, please restart the power.

STEP 3: The AUX port can transmit audio to the speaker for playback. The aux port can be connected to the mobile phone. Just prepare an audio cable and plug the plug into the phone's earphone jack and the aux port to connect.

The cushions can vibrate according to the audio, and when the sound stops, the vibration also stops.

STEP 4: It can adjust the volume and the vibration intensity. It also can connect headphone.

#### **4. The Main Parameters:**

Input rating: DC 12V 1.2A

stand-by current :  $\leq 10\text{mA}$

Temperature Range:  $-20^{\circ}\text{C}$  to  $+70^{\circ}\text{C}$

Wireless transmission range: 10 meters

Sensitivity:  $-80\text{dBm} \pm 0.1\% \text{BER}$

Frequency range: 2.4GHz-2.480GHz

Audio Performance : Support AAC, MP3, SBC, Stereo

Audio signal to noise ratio:  $\geq 75\text{dB}$

Distortion:  $\leq 0.1\%$

## **FCC Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

## **IC Statement**

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.

2. This device must accept any interference, including interference that may cause undesired operation of the device.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CAN ICES-3(B)/NMB-3(B)

L'appareil a été évalué pour répondre aux exigences générales en matière d'exposition aux RF. L'appareil peut être utilisé dans des conditions d'exposition portable sans restriction.
