一、 product introduction

ZigBee wireless 2.4g technology is adopted to realize local and remote intelligent control through "huayi" APP.

Choose aviation grade aluminum alloy material, lighting and scene function two in one, optional combination switch.

With body induction, close to automatic awakening, custom text display.

Support temperature, illumination detection, alarm information synchronization prompt.

Perfect compatibility with the type 86 universal bottom box industry standard, seamless replacement installation.

二、 Product list

Before using this product, please check whether the goods in the package are complete, if there is a lack, please contact the after-sales center.

- 1 x products
- 1X product manual
- 1X product warranty card
- 1 x certificate
- 2X flat screw

三、 Installation guide (drawing sketch)

1. This product is divided into two parts: a. panel; B. Switch bottom box.
2. Remove panel a from the bottom of the product.
3. Correctly connect the circuit according to the wiring label of switch bottom box.

Note: make sure the power is off

4. Fix the switch bottom box on the type 86 universal bottom box with 2 screws.
5. The installation of upper panel a is completed.

四、 network diagram

- 1、 Scan the qr code to download the APP
- Android
IOS

- 2、 Click "scan" in the upper right corner after registration and login.
- 3、 Trace the OLED display or the qr code on the package of the product, and immediately complete the networking.

五、 product parameters

Product size: 86*86*36.5 (mm)

power supply mode: AC 100~240v 50/60Hz

Communication protocol: ZigBee HA

Wireless standards: IEEE 802.15.4 (2.4GHz)

The communication rate: 250Kbps

Standby power: 0.7W

Can pick up the load: load<=800W/220V/road

Working humidity: 5%~85% no condensation

Working temperature: -10℃—50℃

Transmission distance: 100M (open environment)

Connection mode: zero - wire

六、 Matters needing attention

1. The product shall be stored in a dustproof, moisture-proof and mildew-proof environment before installation.
2. Slight fever occurs during the use of this product, which is a normal phenomenon.
3. Default indicator light before entering the network: on (blue), off (red).
4. The indicator light is on (blue) and off (gray) by default after the completion of network connection.
5. Remember, live installation is prohibited.

七、 Technical support

- 1、 Shenzhen Hwellyi Technology Co. , Ltd, with retained ownership.
- 2、 The contents of this document shall be provided according to the manufacturing status of the product. If there is any update, no further notice will be given.
- 3、 If you need to know more about the product and update information, please visit the official website of the product: www.hwellyi.com
- 4、 For consultation, please call the service hotline of hua yi: 400-0085-365

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
