LOC8 PASSPORT WALLET SETUP WITH APPLE'S FIND MY APP

- 1. Update to the latest version of iOS. Activate Bluetooth on your iPhone.
- 2. Press your Loc8 Wallet button once. You will hear a beep sound, indicating your device is ready for pairing.
- 3. Open the Apple Find My app.
- 4. Tap "+"; select "Add Other Item"; search for Loc8 Passport Wallet.

LOCATE AN ITEM

- 1. In "Find My" app, tap "Items," and locate
- your Loc8 Wallet on the map.
 2. Check the last known time and place of the Wallet's location.
- 3. Select an item from the list at the bottom to inspect closely.
- 4. To find a nearby item, tap "Play Sound" and listen for a chime.
- 5. For distant items, click "Directions" to open Maps and navigate to the last known location.

USE LOST MODE

- 1. Enable Lost Mode if you can't find your item. When your Loc8 Wallet is nearby, you will receive notifications from your Find My app.
- 2. Tap "Continue".
- 3. Follow the on-screen steps to finish setting up Lost Mode.

LONG BATTERY LIFE

The product box includes a non-replaceable and non-rechargeable lithium battery. Enjoy over 24 months' battery life.

"When the battery level is low, you will receive an urgent beep sound from the Loc8 Wallet. The Find My app will send a notification to your phone to remind you that the product's battery is low. You can also check the battery level of the Loc8 Wallet in the "Find My" app.

SIDE

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
