### USE LOST MODE

1. If you can't find your card, enable Lost Mode. This will trigger Find My app notifications when your card is nearby.
2. Tap "Continue".
3. Follow the on-screen steps to finish setting up Lost Mode.

\*Your LOC8 Card will stay linked to your Apple ID, unless you unpair it. If someone finds your item while it is in Lost Mode, they can use their iPhone or any NFC-capable device to reach you.

### TROUBLESHOOTING

This device can be reset if you have trouble pairing the card with your iPhone, or if you want to unpair it and give it to someone else.

#### To reset:

1. Hold down the button for 10 seconds.
2. Release the button once you hear the ringtone sound five times.
3. You can repeat this step in "SETUP WITH APPLE'S FIND MY APP" to pair the card with your iPhone.

### CHARGING YOUR LOC8 CARD

1. Place the LOC8 Card on a wireless charger (with the card's thunder logo-side facing the charging surface). Once charging begins, the card's indicator light will illuminate. Once the card is fully charged, the indicator light will switch off.
2. It takes approximately two hours to fully charge the LOC8 Card. A fully charged card battery lasts up to four months.

\*When the battery level is low, you will receive an urgent beep sound from the LOC8 Card. The Find My app will send a notification to your phone to remind you that the product's battery is low. You can also check the battery level of the LOC8 Card in the "Find My" app.

### FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.  
 Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
 This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.  
 If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
 • Reorient or relocate the receiving antenna  
 • Increase the separation between the equipment and receiver.  
 • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
 • Consult the dealer or an experienced radio/TV technician for help.

### FCC Radiation Exposure statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
