Quick Start Guide	How to Use	FCC Warning
 <p>Model: P100C12P16-KV Battery Type: Lithium Polymer Capacity: 10,000mAh Input: USB-C Output 1: USB-C, up to 15W (Power Delivery) Output 2: USB-A, up to 15W (Fast Charge) Output 3: 10W (Wireless Charging) LED: Numerical Battery Charge Indicator Display Output Voltage Selection: Automatic Dimension (HxWxD): 145 x 70 x 45 Frequency Band: 112.28MHz-146.24MHz H-Field: 18.08 dBµA/m at 3m Antenna Type: Loop Antenna</p> <p>Packaging Includes: USB-C 10,000mAh Power Bank USB-C to USB-A Cable User Manual</p> <p>LED Light Meaning: Power On: Red and blue LED light flashes for three times Charging: Breathing blue LED light Standby: Solid blue LED light Fully charged phone: Slow breathing blue LED light Foreign object detected: Flashing red LED light</p>	<p>Charging the Power Bank 1) Before using the A-LOGIC 10,000mAh USB-C Power Bank Ultra for the first time, fully charge the device by using a USB-C cable and a compatible wall charger. (Wall charger not included). The LED display will turn on and show the battery capacity to indicate charging.</p>  <p>Charging Wirelessly 2) Activate the power bank's wireless charging by pressing the power button twice. The wireless LED indicator will flash blue and red three times to indicate that the wireless charger is on. 3) Place an Qi-enabled device on the wireless Qi pad. Ensure that the centre of your device is aligned with the Qi pad.</p> <p>Understanding LED lights Standby: Solid blue LED light Charging: Breathing blue LED light Fully Charged Phone: Slow breathing blue LED light Foreign Object Detected: Flashing red LED light</p> <p>Charging via cable 4) Connect an existing USB-A cable between your device and the power bank's USB-A output. Press the power button. The LED display will turn on to indicate that your device is successfully being charged. 5) Connect an existing USB-C cable between your device and the power bank's USB-C output. Press the power button. The LED display will turn on to indicate that your device is successfully being charged. 6) To check the battery status of the power bank, press the power button.</p>	<p>1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.</p> <p>If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> — Reorient or relocate the receiving antenna. — Increase the separation between the equipment and receiver. — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. — Consult the dealer or an experienced radio/TV technician for help. <p>This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.</p>
