

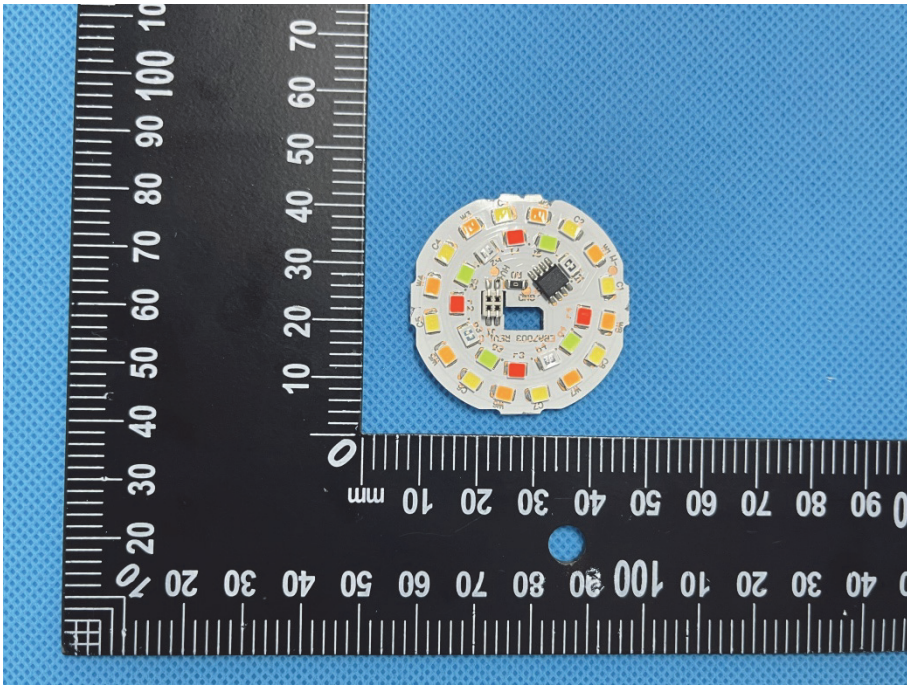

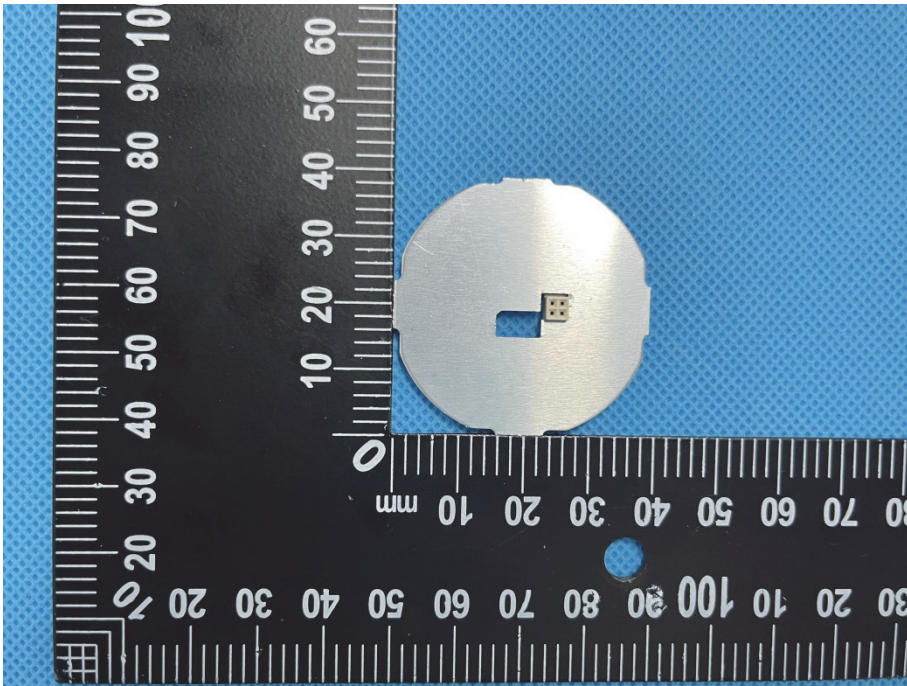

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

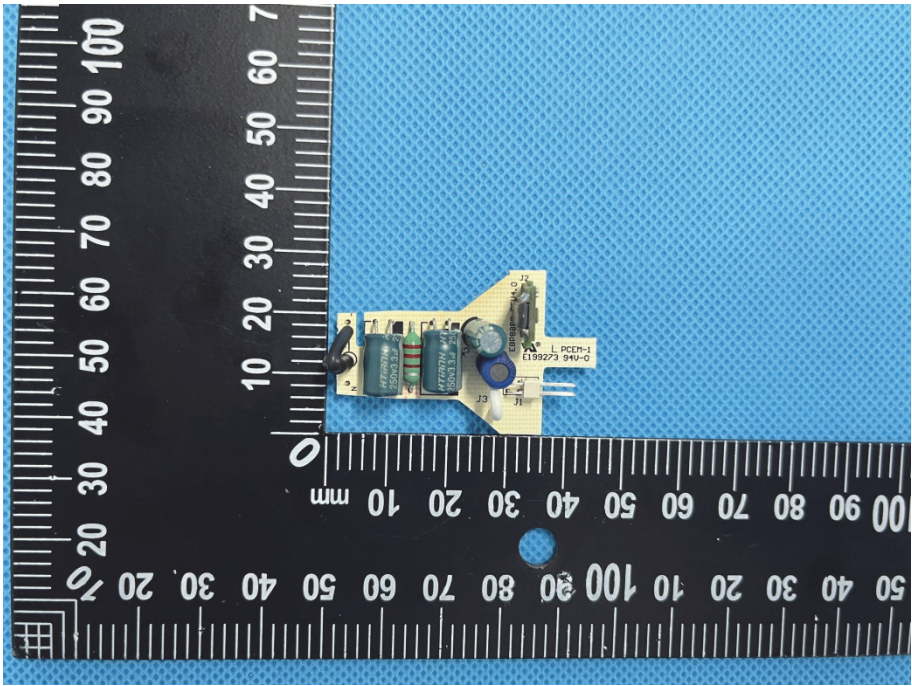

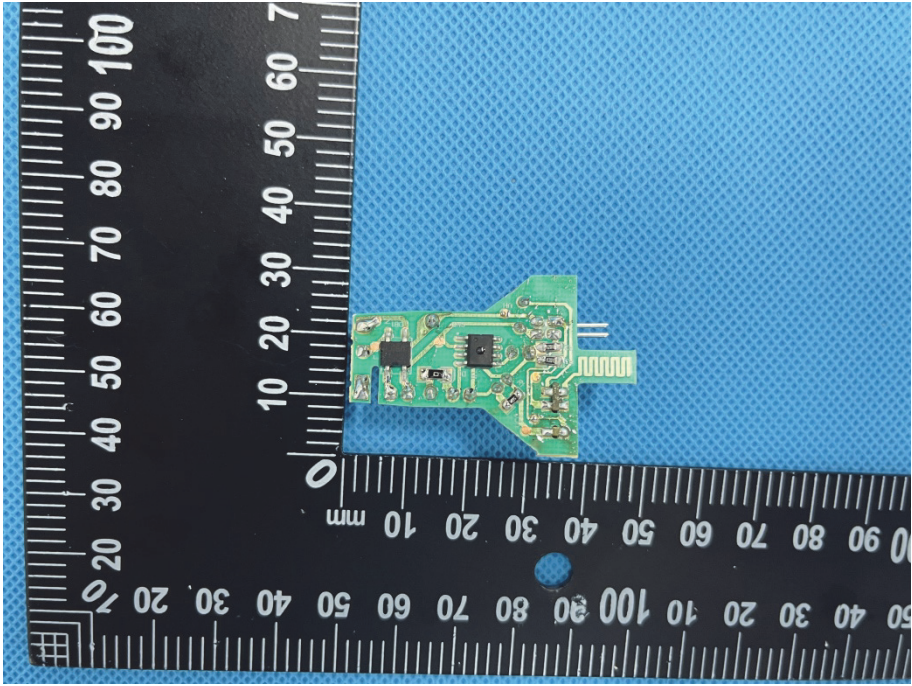

EUT Housing and Board View 1

EUT Housing and Board View 2

<p>Solder Board-Component View 1</p>	 A circular solder board component is shown against a blue background. The component is a thin, circular metal disc with a central square hole. It is populated with various electronic components, including a central integrated circuit (IC) and several smaller components around the perimeter. A black ruler with white markings is placed to the left and bottom of the component for scale. The ruler shows millimeter markings from 0 to 100.
<p>Solder Board-Component View 2</p>	 A circular solder board component is shown against a blue background. The component is a thin, circular metal disc with a central square hole. It is populated with various electronic components, including a central integrated circuit (IC) and several smaller components around the perimeter. A black ruler with white markings is placed to the left and bottom of the component for scale. The ruler shows millimeter markings from 0 to 100.

<p>Solder Board-Component View 3</p>	 <p>A photograph of a small, yellow PCB component with various electronic parts. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm. The component features several components, including a blue electrolytic capacitor, a green integrated circuit, and a small blue component. A label on the component reads "L PCD1-1 0-046 C26613 1198273 949-0".</p>
<p>Solder Board-Component View 4</p>	 <p>A photograph of the same yellow PCB component from a different perspective. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm. The component features several components, including a blue electrolytic capacitor, a green integrated circuit, and a small blue component. A label on the component reads "L PCD1-1 0-046 C26613 1198273 949-0".</p>
