

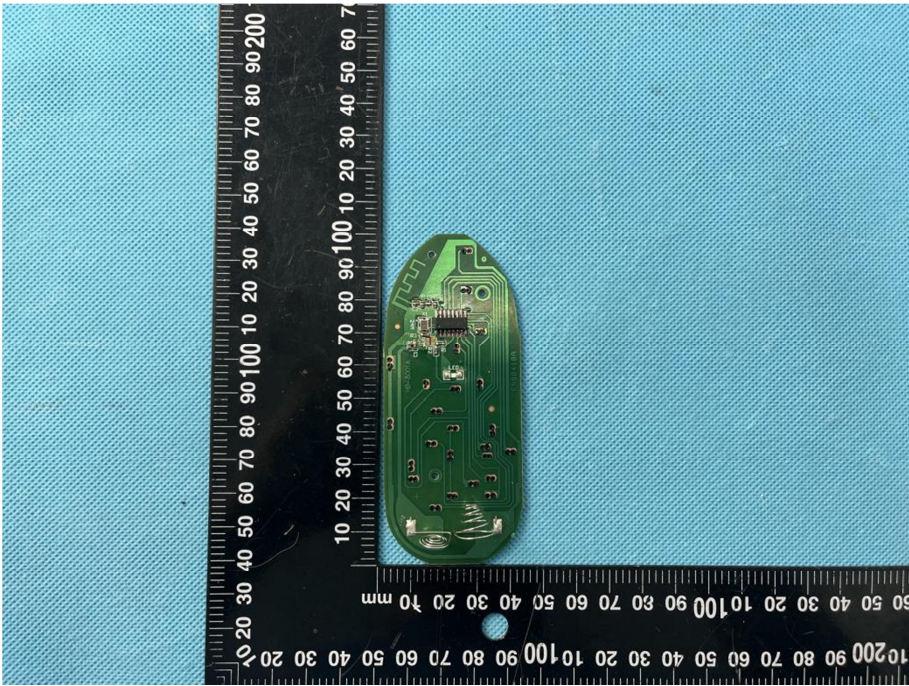

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>This photograph shows the external view of the EUT housing and board. The housing is white plastic, and the board is visible through the opening. A ruler is placed below the housing for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The housing is approximately 100 mm long and 40 mm wide. The board is visible through the opening, showing various components and connectors.</p>
<p><b>EUT Housing and Board View 2</b></p>	 <p>This photograph shows the internal view of the EUT housing and board. The housing is white plastic, and the board is visible through the opening. A ruler is placed below the housing for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The housing is approximately 100 mm long and 40 mm wide. The board is visible through the opening, showing various components and connectors. The board is green and has several components, including a microcontroller, memory, and other integrated circuits. The housing is marked with 'HB-083'.</p>

<p style="text-align: center;"><b>Solder Board-Component View 1</b></p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is an oval-shaped board with various electronic components and traces. It is placed on a blue textured surface next to a black ruler for scale. The ruler shows measurements in millimeters, with the component's length being approximately 100 mm and its width around 40 mm.
<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the component from a different angle, highlighting the solder joints and components on the opposite side. It is placed on a blue textured surface next to a black ruler for scale. The ruler shows measurements in millimeters, with the component's length being approximately 100 mm and its width around 40 mm.
