

## Quick Start Guide

JPT-B19

## Quick Start Guide

### 1. Charging

Line up the charger with the charging area on the back of the device, then connect the cable to a power supply and wait for the battery level to appear on the screen.

**i** Make sure that the device and its accessories stay clean and dry.

### 2. Downloading Huawei Health

To download and install the Huawei Health app, scan the QR code on the right, or search for Huawei Health in AppGallery or other app stores.

### **3. Pairing your device with your phone**

From the device list in the Huawei Health app, select the device and follow the onscreen instructions to complete the pairing.

### **4. Getting help**

View the online help in the Huawei Health app for more information about connection and functions, as well as usage tips.

### **Trademarks and Permissions**

The *Bluetooth*<sup>®</sup> word mark and logos are registered trademarks owned by *Bluetooth SIG, Inc.* and any use of such marks by Huawei Technologies Co., Ltd. is under license. Huawei Device Co., Ltd. is an affiliate of Huawei Technologies Co., Ltd.

Other trademarks, product, service and company names mentioned may be the property of their respective owners.

### **Privacy Policy**

To better understand how we protect your personal information, please see the privacy policy at <https://consumer.huawei.com/privacy-policy>.

### **Blasting Caps and Areas**

Turn off your mobile phone or wireless device when in a blasting area or in areas posted turn off "two-way radios" or "electronic devices" to avoid interfering with blasting operations.

## **Petrol stations and explosive atmospheres**

In locations with potentially explosive atmospheres, obey all posted signs to turn off wireless devices such as your phone or other radio equipment. Areas with potentially explosive atmospheres include fuelling areas, below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust, or metal powders.

## **Operation and safety**

- Using an unapproved or incompatible power adapter, charger or battery may cause fire, explosion or other hazards.
- Ideal temperatures are  $-20^{\circ}\text{C}$  to  $+45^{\circ}\text{C}$ .
- Avoid placing metal objects on the surface of the wireless charging cradle, as they could cause the equipment to heat up and malfunction. Only use the wireless charging cradle in environments with an ambient temperature ranging from  $0^{\circ}\text{C}$  to  $45^{\circ}\text{C}$ .
- If the ambient temperature is too high, the wireless charger may stop working. If this occurs, you are advised to stop wireless charging.
- To keep the wireless charger in good condition, avoid using it inside a vehicle.
- Adult supervision is advised if children are to use or come into contact with this product.
- Please consult your doctor and the device manufacturer to determine if operation of your device may interfere with the operation of your medical device.
- Switch off your wireless device when requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.
- Some wireless devices may affect the performance of hearing aids or pacemakers. Consult your service provider for more information.

- Pacemaker manufacturers recommend that a minimum distance of 15 cm be maintained between a device and a pacemaker to prevent potential interference with the pacemaker. If using a pacemaker, hold the device on the side opposite the pacemaker and do not carry the device in your front pocket.
- Keep the device and the battery away from excessive heat and direct sunlight. Do not place them on or in heating devices, such as microwave ovens, stoves, or radiators.
- Observe local laws and regulations while using the device. To reduce the risk of accidents, do not use your wireless device while driving.
- To prevent damage to your device's parts or internal circuits, do not use it in dusty, smoky, damp or dirty environments or near magnetic fields.
- Do not use, store or transport the device where flammables or explosives are stored (in a gas station, oil depot, or chemical plant, for example). Using your device in these environments increases the risk of explosion or fire.
- Dispose of this device, the battery, and accessories according to local regulations. They should not be disposed of in normal household waste. Improper battery use may lead to fire, explosion, or other hazards.
- The device has undergone testing and has demonstrated water and dust resistance in certain environments.
- The device has a built-in, non-removable battery, do not attempt to remove the battery, otherwise the device may be damaged.
- If the battery leaks, ensure that the electrolyte does not make direct contact with your skin or eyes. If the electrolyte touches your skin or splashes into your eyes, immediately flush with clean water and consult a doctor.
- When charging the device, make sure the power adapter is plugged into a socket near the devices and is easily accessible.

- Unplug the charger from electrical outlets and the device when not in use.
- Do not place sharp metal objects, such as pins, near the microphone. The microphone may attract these objects and result in injury.
- Wireless devices may interfere with the airplane's flight system. Do not use your device where wireless devices are not allowed according to the airplane company's regulations.
- To ensure the best audio performance of your device's microphone, use a cloth to wipe the area of the microphone which has been exposed to water. Do not use the microphone until the wet areas are totally dry.
- Switch off your wireless device whenever you are instructed to do so by airport or airline staff. Consult the airline staff about the use of wireless devices on board the aircraft, if your device offers a 'flight mode' this must be enabled prior to boarding an aircraft.
- Ensure that the power adaptor meets the requirements of Annex Q of IEC/EN 62368-1 and has been tested and approved according to national or local standards.
- Protect the wearable and its accessories from strong impact, strong vibration, scratches, and sharp objects, these may damage the device.
- Make sure that the wearable and its accessories stay clean and dry. Do not wear the wearable too loosely or tightly during workouts. Clean your wrist and device after the workout. Rinse and dry the device to clean it before putting it back on.
- If the wearable is built for swimming and showering, make sure to regularly clean the strap, dry your wrist and the device before wearing it again.
- Loosen the strap for a little bit during the day to let your skin breathe. If wearing it starts to feel uncomfortable, take off your wearable and let your wrist have a rest. If it still feels uncomfortable, stop wearing it and seek medical advice as soon as possible. You can also purchase straps made from other

materials and with different designs from the official Huawei website.

### Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws.

Proper collection and recycling of your equipment helps ensure electrical and electronic equipment (EEE) waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment. For more information about where and how to drop off your EEE waste, please contact your local authorities, retailer or household waste disposal service or visit the website <https://consumer.huawei.com/en/>.

Please go to **Settings > About > Regulatory information** on the device to view the E-label screen.

Please visit <https://consumer.huawei.com/en/support/hotline> for recently updated hotline and email address in your country or region.

### FCC Regulatory Compliance

#### RF exposure requirements

Important safety information regarding radio frequency (RF) radiation exposure:

The device complies with RF specifications when the device is worn on the wrist and at a distance of 1.0 cm from your face. Failure to observe this guideline may result in RF exposure exceeding limits.

### **Certification information (SAR)**

This device is also designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA). The SAR limit adopted by USA is 1.6 W/kg averaged over 1 gram of tissue for use against the head and 4.0 W/kg averaged over 10 grams of tissue for use on the wrist. The highest SAR value reported to the FCC for this device type complies with this limit.

### **FCC statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Caution:** Any changes or modifications to this device not expressly approved by Huawei Device Co., Ltd. for compliance could void the user's authority to operate the equipment.

**Mexico Compliance:** (This section is only applicable for Mexico.)

The operation of this device is subjected to the following two conditions: (1) This device may not cause harmful interferences; and (2) this device must accept any interferences, including those that may cause an undesired operation.

For information about the IFT certification, visit <https://consumer.huawei.com/certification/>.
