<div><div>Frequently Asked Questions and Answers</div><div><div><div>1. What should I do if the Bluetooth pairing is unsuccessful? Due to the particularity of the Bluetooth connection, there will occasionally be unsuccessful pairing. At this time, you need to ignore the connected Bluetooth name in the Bluetooth settings, and then turn off the Bluetooth. Put the earphones in the charging compartment for 10 seconds, then take the earphones out of the charging compartment together, and wait for 5-10 seconds for the binaural tea to succeed.</div><div>2. What should I do if there is no sound from the earphones? Check the volume of the phone after connecting the headset to the</div></div></div></div>	<div><div>phone. The maximum volume of the Android phone is subject to the default volume of the phone; you can also check whether you accidentally touch the touch area of the headset, causing the music to pause and the headset does not sound.</div><div><div>3.What should I do if there is occasional freeze/delay? Since the headset is connected via Bluetooth,occasionally there will be a freeze or disconnection, please reconnect it. When running large software, browsing foreign websites, or other software that occupies a large amount of memory, it will increase the loading load of Bluetooth, which is not a quality problem of the headset itself.</div></div></div>	<div><div>Precautions:</div><div><div><div>1. Do not treat this product violently, or squeeze it with heavy objects, and stay away from high temperature and high humidity environments.</div><div>2. Keep away from wifi, routers and other high-frequency transmitting equipment, which will affect the signal reception of this machine, and cause the sound to be stuck and disconnected.</div><div>3. Please use this product in an effective environment (10 meters), and there should be no physical obstruction (such as walls, etc.) between the Bluetooth device and the headset.</div><div>4. When the charging compartment cover is opened and closed, the charging box light does not turn on. This is the status display of the charging compartment without electricity. At this time, the automatic power on of both ears is invalid, and manual touch is required to power on.</div></div></div></div>
<div><div>FCC Statement</div><div><div><div>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one o r more of the following measures:</div><div><div>-- Reorient or relocate the receiving antenna.</div><div>-- Increase the separation between the equipment and receiver.</div><div>-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected</div><div>-- Consult the dealer or an experienced radio/TV technician for help.</div></div></div><div><div>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device mus t accept any interference received, including interference that may cause undesired operation.</div><div>Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</div></div></div></div>
