Subject: Certification Application, Cover Letter – Info Guide Hard Copy Shipment
Certification Application *FCC ID: 2ATFX-100541*

To whom it may concern

This letter is to confirm that an info guide containing the Part 15 statement is printed and supplied in box with the product. The following text is included: “This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with the safety requirements for portable RF exposure in accordance with FCC rule part §2.1093 and KDB 447498 D01.” There is insufficient area on the device to allow this text to be printed on the product itself.

This letter is also to confirm that the font size of the FCC ID printed on the flexible PCB of the device is smaller than the demanded 4 points due to the overall size limitations. The largest size possible is used that allows all the print to be included in the exposed and visible area of the Range Extender. The remaining areas of the flexible PCB will typically be hidden by mechanical plastic parts.

Yours faithfully,

DocuSigned by:
